

BIMB DANA AL-FALAH

FUND MANAGER'S REVIEW

The FBMS Index was down by 7.15% in October as the local equity market sentiment is being negatively affected by unfavourable regional and US market performance. As a result, the Fund's NAV had decreased by 7.40% on a 1 month basis and underperformed the benchmark by 2.48% during the same period under review as higher beta technology and other export related stocks fell more than Index stock.

The concerns over no-deal Brexit, potential economic slowdown in China and trade war escalation between US and China have negatively impacting the market sentiment. Domestically, policy uncertainty and sentiment in the local market was also affected by speculation of additional taxes in the upcoming Budget 2019.

The Fund will continue to be fully invested with the aim of improving its Fund performance over time.

INVESTMENT OBJECTIVE

The principal investment objective of the Fund is to achieve long term capital appreciation of the Units by investing in a diversified portfolio of equities, sukuk and money market instruments.
