

BIMB DANA AL-MUNSIF

FUND MANAGER'S REVIEW

The FBMS Index was down by 1.07% in July as the lack of positive domestic catalysts and uncertainties over US-China trade talks continue to weigh on the market. As a result, the Fund's NAV had decreased by 1.28% on a 1-month basis and underperformed the benchmark by 0.74% during the same period under review as the Fund's allocation on small and mid cap counters continue to be negatively affected by US-China trade tension.

Overall, the Fund intends to maintain its equity exposure at around 40%-60% range and adopt a defensive strategy by moving into large cap stock for the fund to seek more a more stable and steady NAV movement for the fund. The Fund will closely monitor the development on the trade talks and the overall market condition to achieve the most optimal exposure between cash, large cap stocks and small to mid cap counters.
