KEY RISKS

16. What are the key risks associated with this product?

You are exposed to the following risks:

- i. **Specific Security Risk** – Specific security risk refers to the risk of investing in any particular security. Specific security risk includes but is not limited to legal suits, competitive operating environment, decline in profitability and mismanagement of a specific company issuing a security. Specific security risk could result in a decline in the price of the security and in turn cause a decline in the NAV of the Fund. This risk can be mitigated by security analysis conducted by the Manager.
- ii. **Credit/Default Risk** – The risk arises when an issuer is unable to service any periodic obligations, e.g. profit payments and/or pay the principal amount when due. In such cases, investors will suffer significant losses. This risk can be mitigated by investing in Sukuk carrying a minimum credit rating of AA3 by RAM or AA- by MARC or an equivalent credit rating by any other credit rating agencies or a minimum short-term credit rating of P1 by RAM or MARC-1 by MARC or an equivalent credit rating by any other credit rating agency. This risk is also mitigated by credit analysis conducted by the Manager to determine the issuer's ability to service promised payments.
- iii. **Profit/Interest Rate Risk** – Generally, changes in the level of general interest rates* may cause prices of Sukuk to change inversely. This risk can be mitigated by holding Sukuk investment until maturity, thereby locking in its yield. The Manager also manages profit/interest rate risk by considering each Sukuk's sensitivity to profit/interest rate changes as measured by its duration.

*Note: The term interest rate does not in any way suggest that this Fund will invest in securities or instruments which are Shariah non-compliant. All investments carried out for the Fund are in accordance with principles of the Shariah.
- iv. **Reclassification of Shariah Status Risk** – This risk refers to the risk that the currently held Shariah-compliant securities in the portfolio of the Fund may be reclassified to be Shariah non-compliant in the periodic review of the securities by the Shariah Advisory Council (SAC) of the SC. If this occurs, the Manager will act in accordance with the guidance issued by the SAC to ensure that the Fund complies with the Shariah principles. The Manager also has an internal Shariah Committee which meets once in every quarter to provide guidance and advice in ensuring the Fund's investments are conducted in accordance with Shariah rules and principles.
- v. **Counterparty Risk** – Counterparty risk refers to the risks that any financial institution that the Fund may deal with, under certain circumstances, fail to perform their obligations when due. This will result in the Fund to experience significant losses.
