INVESTMENT POLICY AND STRATEGY

The Fund's activities shall be conducted strictly in accordance with the principles of Shariah and shall be monitored by the Shariah Adviser. The Fund aims to provide a medium to long term* returns by investing in companies that have growth prospects and pay dividends.

To meet the investment objective, the Fund will mainly focus on the Shariah-compliant equity investment (up to 98% of the Fund's NAV) which will comprise a diversified portfolio of blue chip, high growth and dividend paying companies that are listed on Bursa Malaysia and foreign markets. The foreign investment is restricted to foreign markets where the regulatory authorities are the ordinary or associate members of the International Organization of Securities Commissions (IOSCO).

The Manager will adopt an active trading approach of which the Fund may increase its Shariah-compliant equity investment if the equity market outlook is expected to be positive. Conversely, investments in Islamic deposits and Islamic money market instruments will be raised at the expense of lower equity exposure in the event a severe downturn in equity market is anticipated. The investments in Islamic deposits and Islamic money market instruments will be raised up to 30% and it may go beyond 30% of the Fund's NAV if the Manager adopts temporary defensive strategy.

The Fund may also invest in Sukuk which is generally for capital preservation** and to achieve capital appreciation. The remaining of the portfolio will be invested in Islamic money market instruments to provide liquidity.

RISK MANAGEMENT

Proper asset allocation, portfolio diversification and liquidity management are among the methods that may be adopted by the Manager to manage the Fund's risks such as security specific risk and credit/default risk. The market risk is managed through close monitoring by the Investment Committee. If there is a high possibility that the equity market or the Sukuk market may fall, the exposure in Shariah-compliant equity or Sukuk will be reduced accordingly or vice versa.

In managing the investment risks of Sukuk, the Manager will conduct an extensive research and analysis on the issuer, credit rating, maturity factor, and liquidity of the Sukuk.

INVESTOR PROFILE

The Fund is suitable for investors who:-

- Seek moderate to high capital appreciation.
- Have medium to long term* horizon.

**Note: "medium to long term" in this context refers to three (3) years or more.*

INVESTMENT OBJECTIVE

The principal investment objective of the Fund is to achieve long term capital appreciation of the Units by investing in a diversified portfolio of Shariah-compliant equities, Sukuk and Islamic money market instruments. Accordingly, all investment income (if any) shall be reinvested for long term capital growth rather than distributed annually.

Any material change to the investment objective of the Fund would require Unit Holders' approval.

INVESTMENT POLICY AND STRATEGY

The Fund's activities shall be conducted strictly in accordance with the principles of Shariah and shall be monitored by the Shariah Adviser.

The investments of the Fund would be biased towards Malaysian and foreign markets that could potentially offer capital appreciation rather than steady incomes. The foreign investment is restricted to foreign companies where the

regulatory authorities are the ordinary or associate members of the International Organization of Securities Commissions (IOSCO). To meet the objective, Shariah-compliant equity investment will represent up to **80%** of the Fund's NAV. The main focus of the Fund would be the accumulation of Shariah-compliant stocks relating to companies which may potentially be able to achieve earnings growth in the medium to long term*. The Fund may also invest in undervalued companies.

The Fund may invest in Sukuk and Islamic money market instruments (collectively up to 70% of NAV).

The investments in Sukuk are particularly for the purpose of generating the recurring income from expected regular profit payment. The Sukuk must have a minimum AA3 rating by RAM or AA- rating by MARC or its equivalent by any other recognised credit rating agency.

The investments of the Fund in Islamic money market instruments are largely confined to placement of short-term Islamic deposit instruments with licensed financial institutions, short-term sukuk issued by the Malaysian government, Government-backed agencies, Bank Negara Malaysia and Malaysian corporations. The Fund's investment in Islamic money market instruments may also include Islamic accepted bills, Islamic banker's acceptance, certificates of Islamic deposits and Islamic commercial paper of companies carrying a minimum short-term credit rating of P1 by RAM or MARC-1 by MARC or its equivalent by any other recognised domestic rating agency.

The Manager may also invest in Islamic collective investment schemes and Islamic structured products to further enhance the Fund's potential returns. The main focus of the investment in Islamic collective investment schemes would be in Islamic real estate investment trusts (REITs) which normally distribute regular income. The investment in Islamic structured products would only be in capital protected Islamic structured products which normally provide capital protection with the possibility of returns. The investment in Islamic structured products will be issued by licensed financial institutions which carry a minimum rating of AA3 by RAM or AA- by MARC or its equivalent by any other rating agencies. The underlying assets in the Islamic structured products must be within the permitted investments of the Fund.

The investment of the Fund in Islamic collective investment schemes and Islamic structured products must be relevant and consistent with the objective of the Fund.

**Note: "medium to long term" in this context refers to three (3) years or more.*

POLICY ON ACTIVE AND FREQUENCY OF TRADING OF SECURITIES

The Fund is actively managed and the frequency of the Fund's trading strategy is very much depending on market opportunities.

ASSET ALLOCATION

- Shariah-compliant Equity : 30% to 80%
- Sukuk : 0% to 40%
- Islamic money market instruments : 0% to 50%
- Islamic collective investment schemes : 0% to 30%
- Islamic structured products : 0% to 20%

The Manager may, in response to adverse market, economic, political and any other conditions, adopt a temporary defensive strategy by increasing the Islamic liquid assets portion. When this happens, the asset allocation of the Fund will be altered accordingly.

RISK MANAGEMENT

Proper asset allocation, portfolio diversification and liquidity management are among the methods which may be adopted by the Manager to manage the Fund's risks such as security specific risk and credit/default risk. The market risk is managed by close monitoring by the Investment Committee. If there is a high possibility that the equity market or the Sukuk market may fall, the exposure in Shariah-compliant equity or Sukuk will be reduced accordingly or vice versa.

In managing the investment risks of Sukuk, the Manager will conduct an extensive research and analysis on the issuer, credit rating, maturity factor and liquidity of the Sukuk. The same approach will be adopted if the Fund invests in Islamic structured product. In addition, the Fund will also comply with the "Permitted Investments" and the "Investment Restrictions and Limits" of the Fund.

For the investment in Islamic collective investment schemes (CIS), the Manager will diversify their investments across a range of Islamic CIS in order to mitigate specific risk exposure to any particular Islamic CIS. The Fund will invest in a minimum of five (5) Islamic CIS in its portfolio at all times with a maximum exposure of 20% in one (1) single Islamic CIS.

**Note: “medium to long term” in this context refers to three (3) years or more.*

Any material change to the investment objective of the Fund would require Unit Holders’ approval.

INVESTMENT POLICY AND STRATEGY

“The Fund’s activities shall be conducted in accordance with the principles of Shariah and shall be monitored by the Shariah Adviser.

The Fund aims to provide a medium to long term* returns by investing in companies that have growth prospects.

The focus/objective of the Fund is to make NAV gains. Hence, the Fund needs to make/take tactical investment decisions within its portfolio in order to achieve its objective.

These tactical undertakings will be any theme or opportunities that are available in the market that the Manager deems best in prospects, at any given time. Such theme would include exports, construction, REITs, technology, oil & gas etc.

To meet the investment objective, the Fund will mainly focus on the Shariah-compliant equity investment (up to 98% of the Fund's NAV) which will comprise a diversified portfolio of blue chip, Islamic collective investment schemes (CIS) and high growth companies that are listed on Bursa Malaysia and in foreign markets where the regulatory authorities are the ordinary or associate members of the International Organization of Securities Commissions (IOSCO).

The Manager will adopt an active trading approach of which the Fund may increase its Shariah-compliant equity investment if the equity market outlook is expected to be positive. Conversely, investments in Islamic deposits and Islamic money market instruments will be raised at the expense of lower equity exposure in the event a severe downturn in Shariah-compliant equity market is anticipated. The investments in Islamic deposits and Islamic money market instruments will be raised up further if the Manager adopts temporary defensive strategy."

The Manager may, in response to adverse market, economic, political and any other conditions, adopt a temporary defensive strategy by maintaining higher Islamic deposits and Islamic money market instruments portions. When this happens, the asset allocation of the Fund will be altered accordingly.

TEMPORARY DEFENSIVE POSITION

To help achieve the Fund's objective, in the event of a volatile market or any adverse condition that could affect the Fund, the Manager may take a temporary defensive position in attempting to respond to those conditions and preserve the long term investment returns of the Fund.

This defensive position may take the form of a temporary reduction in the exposure to the investments affected by the adverse conditions and the replacement thereof with investments which the Manager may consider to preserve the value of the Fund although not necessarily meeting entirely the asset allocation of the Fund for a temporary period. Such defensive position may include increasing the exposure in Islamic liquid assets/cash and/or cash equivalent assets to more than 30% of the Fund's NAV.

3.1.6 BIMB i FLEXI FUND

FUND PROFILE

Financial Year End	31 March

INVESTOR PROFILE

The Fund is suitable for investors who:-

- have a medium to high risk tolerance;
- seek capital appreciation;
- do not seek regular income stream; and
- have a long term investment horizon of more than five (5) years.

INVESTMENT OBJECTIVE

The Fund seeks to achieve long term capital growth by investing in a diversified portfolio of Shariah-compliant securities.

Any material change to the investment objective of the Fund would require Unit Holders' approval.

INVESTMENT POLICY AND STRATEGY

The Manager will determine the appropriate asset allocation for Shariah-compliant equity and Sukuk investments based on the prevailing outlook of both asset classes. The Manager will employ an active asset allocation strategy to outperform its benchmark by investing in both Shariah-compliant equity and Sukuk. In deciding on the asset allocation, the Manager will consider interest rate outlook, developments in the global and Malaysian economy, the financial market environment and the liquidity in the Sukuk and equity markets.

The Fund may invest up to 99% of its NAV in both local and foreign Shariah-compliant equities to take advantage of the available opportunities. The foreign investment is restricted to foreign markets where the regulatory authorities are the ordinary or associate members of the International Organization of Securities Commissions (IOSCO). The Fund may also invest up to 99% of its

NAV in Sukuk and Islamic money market instruments to take advantage of the opportunities available by investing in Sukuk and Islamic money market instruments. This allows the Fund the flexibility to invest in Shariah-compliant equities, Sukuk and Islamic money market instruments. The Fund will maintain at least 1% of its NAV in Islamic money market instruments.

The strategy is to invest in both Shariah-compliant equity and Sukuk to outperform the benchmark. The stock selection strategy is to invest in a portfolio of Shariah-compliant equities having growth potential over the medium to long term*. One of the criteria that the Fund will look for when investing in equity is companies with good earnings visibility. In upholding the spirit of Shariah-compliant concept of fund management, the investment portfolio of the Fund will comprise securities which have been classified as Shariah-compliant by the SAC. For securities that are not within the SAC's purview, the status of the securities will be determined in accordance with rulings issued by the Fund's Shariah Adviser. The Fund will not invest in companies involved in conventional banking/finance, conventional insurance, gaming, alcoholic beverages and non-halal food products.

The investments in Sukuk and Islamic money market instruments are for the purpose of generating income from expected regular profits and price appreciation. Some of the criteria that the Fund will look for when investing in Sukuk are the issuer, yield, duration of Sukuk and minimum credit rating of AA3 by RAM or AA- by MARC or an equivalent credit rating by any other credit rating agency; or minimum short term credit rating of P1 by RAM or MARC-1 by MARC or an equivalent credit rating by any other credit rating agency. The Manager will perform credit analysis by analyzing the issuer background, the terms and conditions of the issuance, strength and weakness of the issuer and financials of the issuer. The investment in Islamic money market instruments is for the purpose of providing liquidity to meet the short term cash flow requirements of the Unit Holders while providing a reasonable level of current income. The Islamic money market investments will consist Islamic fixed deposits, Shariah-compliant government securities and any other securities guaranteed by Malaysian government, Bank Negara Malaysia or other related government agencies. The Manager will continuously evaluate and review the performance of the Fund.

**Note: "medium to long term" in this context refers to three (3) years or more.*

POLICY ON ACTIVE AND FREQUENCY OF TRADING OF SECURITIES

The Fund is actively managed and the frequency of the Fund's trading strategy is very much depending on market opportunities.

ASSET ALLOCATION

The Fund may invest up to 99% of its NAV in Shariah-compliant equities but this may be reviewed from time to time depending on the economic and stock market conditions. An internal allocation for cash and other Islamic liquid assets will be maintained to ensure that the Fund is able to meet repurchase requests without jeopardizing the Fund's performance. The Fund may also invest up to 99% of its NAV in Sukuk and Islamic money market instruments.

RISK MANAGEMENT

Proper asset allocation, portfolio diversification and liquidity management are among the methods which may be adopted by the Manager to manage the Fund's risks such as specific security risk and credit/default risk. If there is a high possibility that the equity market or the Sukuk market may fall, the exposure in equity or Sukuk will be reduced accordingly or vice versa.

In managing the investment risks of Sukuk, the Manager will conduct an extensive research and analysis on the issuer, credit rating, maturity factor and liquidity of the Sukuk.

3.8 INTRODUCTION TO ISLAMIC UNIT TRUST FUND

An Islamic unit trust fund is a form of Islamic collective investment scheme which provides a channel for investors who share similar financial objectives to

pool and invest their monies in a diversified portfolio of Shariah-compliant securities, Sukuk and other securities.

The Islamic unit trust fund allows investors to have an indirect exposure to a broad mix of Shariah-compliant investments and to benefit from better differential rate of returns without having to spend substantial time in researching, managing and safeguarding their investments in the dynamic capital or money market environments. Investors may enjoy all benefits generated by a unit trust fund which may come in the form of income distribution and/or capital appreciation from time to time.

How Does the Islamic Unit Trust Fund Works?

An Islamic unit trust fund involves three (3) parties namely the investor, the manager and the trustee. This tripartite relationship is governed by the deed registered with the SC. The operation of an Islamic unit trust fund is governed by a legal document called a deed. It provides the rights and obligations of the manager, the role of the Shariah Adviser, the rights and duties of the trustee and the rights of the investors. It also specifies in detail how the Islamic unit trust fund is to be operated and managed and how fees are to be charged. By investing in the Islamic unit trust fund, the investor appoints the manager to undertake the investment activities on their behalf under the Islamic contract of "*Wakalah Bil Istithmar*". The manager of the Islamic unit trust fund is responsible for the management and operations of the Islamic unit trust fund, distribution of income and computation of unit prices. The trustee is appointed to act as custodian for all assets of the Islamic unit trust fund and to ensure that the manager adheres strictly to the provisions of the deed. In other words, the trustee acts as an independent party to safeguard the interest of investors. The Shariah Adviser advises and ensures that the manager invests the assets of the Islamic unit trust fund in Shariah-compliant investments. A simple illustration of the relationship is as set out in Diagram A.

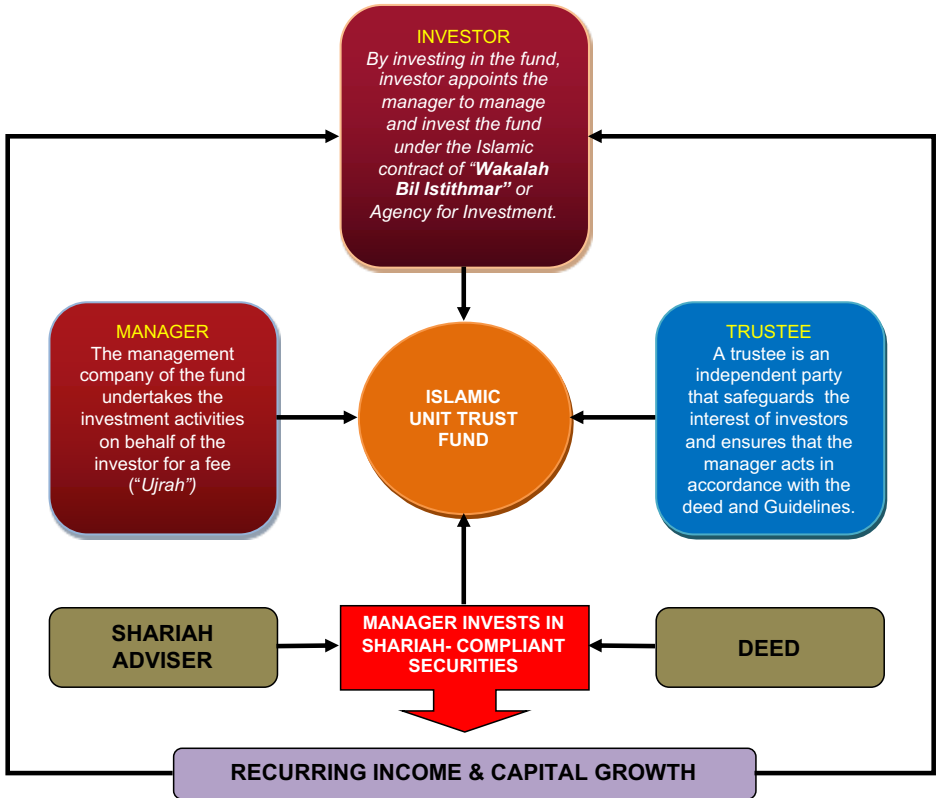

The Islamic unit trust fund will be strictly monitored by the Shariah Adviser, comprising individuals registered as Shariah advisers with the SC. The Shariah Adviser's role is to provide advice and guidance to the manager to ensure that all activities of the fund comply with Shariah principles. The Shariah Adviser acts independently from the manager and some of its roles are as follows:

- i. To advise on all aspects of Islamic fund management business in accordance with Shariah principles;
- ii. To provide Shariah expertise and guidance on all matters, particularly in documentation, structuring and investment instruments and ensure compliance with relevant SC regulations and/or standards, including resolutions issued by the SAC;

- iii. To review compliance report of the manager and investment transaction report to ensure that investment activities are Shariah compliant; and
- iv. To provide a written opinion and/or periodic report to confirm and certify whether the Islamic fund management business has been managed and/or administered in accordance with Shariah principles.

PROCESS FLOW OF ISLAMIC UNIT TRUST

3.9 SHARIAH INVESTMENT PROCESS

a. Shariah Approval Process

At all times, as to the investment portfolio of the Fund, the Fund shall invest in instruments that are allowed under Shariah principles, which have been classified as Shariah-compliant by the SAC of SC and/or BNM and/or other Shariah boards/Shariah advisers/Shariah committees of those instruments, acceptable to the Shariah Adviser of the Fund.

In conformity with the principles of the Shariah, the Fund shall not invest in securities of companies engaged in the following core activities or producing the following categories of products:-

- a. Conventional banking, insurance and financial services;
 - b. Gambling;
 - c. Manufacture or sale of alcoholic beverages;
 - d. Manufacture or sale of non-halal products or related products;
 - e. Entertainment activities that are non-permissible according to Shariah;
- and

any further restrictions as may be determined by the SC or the Shariah Adviser from time to time. For liquid assets purposes, the Fund shall not make placement in conventional deposits and interest-bearing money market instruments.

b. Methodology and Screening Process

Investable stocks will be screened to ensure compliance with Shariah principles.

For Malaysian securities, Shariah Adviser will refer to and rely on the SAC SC updated list of securities which have been classified as Shariah-compliant securities twice a year. For global securities, Shariah Adviser will rely on the list of universe which is screened using the financial and business activity screening in accordance with the Shariah standards set by the Accounting and Auditing Organization for Islamic Financial Institutions (“AAOIFI Standards”).

The Shariah Adviser shall ensure that the investment activities carried out for the Fund will be in compliance with the Guidelines and any other regulations from other relevant authorities.

3.10 TREATMENT OF DISPOSAL OF SHARIAH NON-COMPLIANT SECURITIES

a. “Shariah-Compliant Securities” which are subsequently considered “Shariah Non-Compliant”

For securities which were earlier classified as Shariah-compliant securities but due to some reasons, such as changes in the companies’ operations, are subsequently considered Shariah non-compliant, the Manager must liquidate the securities if the value of the securities held exceeds or is equal to the investment cost (which may include brokerage cost or other related transaction cost). Any dividends received and excess capital gain from the disposal of the Shariah non-compliant securities made at the time of the announcement may be retained by the Fund. However, any dividends received and excess capital gain from the disposal after the announcement day should be channeled to baitulmal and/or charitable bodies as advised by the Shariah Adviser.

On the other hand, the Fund is allowed to hold the investment of the Shariah non-compliant securities if the market price of the said securities is below the investment cost. It is also permissible for the Fund to retain the dividends received during the holding period until such time when the total amount of dividends received and the market value of the Shariah non-compliant securities held equal the investment cost. At this stage, the Shariah non-compliant securities will be disposed off.

In addition, during the holding period, the Fund is allowed to subscribe for:-

- i. Any issue of new securities by a company whose Shariah non-compliant securities are held by the Fund, for example rights issue, bonus issue, special issue and warrants [excluding securities whose nature is Shariah non-compliant, e.g. loan stocks];
- ii. Shariah-compliant securities of other companies offered by the company whose Shariah non-compliant securities are held by the Fund; and
- iii. on the condition that the Fund will expedite the disposal of the Shariah non-compliant securities.

For securities of other companies [as stated in (ii) above], they must be Shariah-compliant securities.

b. Shariah Non-Compliant Securities

In accordance with SAC's advice, any Shariah non-compliant securities which have been inadvertently purchased by the Fund shall be disposed off by the Manager within a month of becoming aware of the status of the securities. Any gain made in the form of capital gain or dividend received during or after the disposal of the securities will be channeled to baitulmal and/or charitable bodies as advised by the Shariah Adviser. Any loss arises from the disposal will be borne by the Manager. The Fund has a right to retain only the investment cost.

4. RISK FACTORS

4.1 GENERAL RISKS OF INVESTING IN THE FUNDS

This section of the Master Prospectus provides you with information on the different types of risks the Funds may be subjected to. The Funds are exposed to the following risks:-

- a. **Market Risk** – This risk arises due to fluctuations in market value of investments. Such fluctuations occur because of factors that affect the entire market. Market risk cannot be eliminated by diversification. It stems from the fact that there are economy-wide perils which threaten all businesses. Hence investors will be exposed to market uncertainties, and no matter how many equities are held, fluctuations in the economy, political and social environment will affect the market price of the investments.
- b. **Shariah Non-Compliance Risk** – This is a risk that the Fund may hold investments which are not Shariah-compliant by error or the administration and operation of the Fund are not in line with Shariah rules and principles. If this occurs, there is a possibility that the Unit price of the Fund may be adversely affected due to rectification required.
- c. **Management Risk** – Poor management of the Fund may cause losses to the Fund which in turn may affect the capital invested by Unit Holders. The Manager is able to manage such risk with close monitoring by the Investment Committee members which will oversee the activities and performance of the Fund.
- d. **Financing Risk** – This risk occurs when the investors take financing to finance their investment. The inherent risk of investing with financed money includes investors being unable to service the financing repayments. In the event Units are used as collateral, an investor may be required to top-up the investor's existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per unit as compared to the NAV per unit at the point of purchase towards settling the financing.

Other financing risk factors to consider include:

- i. the higher the margin of financing, the greater the potential for losses as well as gains; and
 - ii. if the financing taken is a variable profit rate financing and profit rates rise, the total repayment amount will increase.
- e. **Risk of Non-Compliance** – This is a risk where the Fund may be mismanaged due to the Manager's non-compliance with the provisions set

out in the Deed or the Master Prospectus or the laws/guidelines governing the Fund or the Manager's own internal procedures or where the employee of the Manager acts fraudulently or dishonestly in managing the Fund. This may also occur when the Manager does not adhere to the investment mandate of the Fund.

Investors are reminded that the above list of risks may not be exhaustive and if necessary, they should consult their professional adviser(s).

4.2 SPECIFIC RISKS ASSOCIATED WITH INVESTING IN THE FUNDS

In addition, there are also specific risks associated with the Funds that need to be considered. It is important for investors to be aware of the risks associated with their investments. The specific risks associated with investing in the Funds are:-

BIMB i Growth, BIMB Dana Al-Munsif, BIMB Dana Al-Falah, BIMB i-Tactical Fund (formerly known as BIMB i Dividend Fund) and BIMB i Flexi Fund

- a. **Specific Security Risk** – Specific security risk refers to the risk of investing in any particular security. Specific security risk includes but is not limited to legal suits, competitive operating environment, decline in profitability and mismanagement of a specific company issuing a security. Specific security risk could result in a decline in the price of the security and in turn cause a decline in the NAV of the Fund. This risk can be mitigated by security analysis conducted by the Manager.
- b. **Credit/Default Risk** – Credit risk relates to the creditworthiness of the issuers of the Sukuk and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the Sukuk. In the case of rated Sukuk, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of a Sukuk either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the Sukuk. This could adversely affect the value of the Fund.
- c. **Profit/Interest Rate Risk** – Generally, changes in the level of general interest rates* may cause prices of Sukuk to change inversely. This risk can be mitigated by holding Sukuk investment until maturity, thereby locking in its yield. The Manager also manage profit/interest rate risk by considering each Sukuk's sensitivity to profit/interest rate changes as measured by its duration.

**Note: The term interest rate does not in any way suggest that these Funds will invest in securities or instruments which are Shariah non-*

compliant. All investments carried out for the Funds are in accordance with principles of the Shariah.

- d. **Shariah Non-Compliance Risk** – This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by the SACSC, the Shariah adviser or the Shariah boards of the relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose such equities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities.
- e. **Counterparty Risk** – Counterparty risk refers to the risks that any licensed financial institution that the Funds may deal with, under certain circumstances, fail to perform their obligations when due. This will result in the Funds to experience significant losses.
- f. **Structured Product Risk** – Structured products are subject to the risks associated with the underlying market or security, and may be subject to greater volatility than direct investments in the underlying market or security. Structured products may entail the risk of loss of principal and/or profit payments as a result of movements in the underlying market or security. This will result in the Fund to experience significant losses.
- g. **Collective Investment Scheme Risk** – Poor management of the collective investment scheme (CIS) due to the lack of experience, knowledge, expertise and poor management techniques of the investment manager would have an adverse impact on the performance of the CIS. This may result in the Fund suffering loss in its investments in the CIS.
- h. **Dividend Risk** – There may be times when companies are unable to declare any dividends. Therefore, the Fund may have less income for that period.
- i. **Equity-related Securities Risk** – The Fund may invest in warrants and the value of warrants is influenced by the current market price of the underlying security, the exercise price of the warrant, the time to expiration of the warrant and the estimate of the future volatility of the underlying securities price over the life of the warrant. Particularly, risk factor related to warrants encompasses value decay over time as the warrant approaches its due date especially in the event that the warrants are held and not exercised.

- j. **Country Risk** – Investments of the Fund in any countries may be affected by changes in the country's economic, social and political stability, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall.
- k. **Currency Risk** – As the investments of the Fund may be denominated in currencies other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund in the base currency of the Fund and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.
- l. **Political Risk** – Political instability that arises from disruption of economic activity and social unrest may directly or indirectly impact the Fund's investment in a particular country. A change in government or government policies with regards to its capital market regulations may effect a Fund's financial position, possibly causing a Fund to liquidate its position at a less ideal price or below investment cost. Government policies may not have the same approach in perpetuity.
- m. **Regulatory Risk** – The Fund's investments are exposed to laws and regulations in the respective countries they invested in. Regulatory changes in these countries may pose a risk to the Fund as it may materially impact the Fund's investments. The Manager will continuously keep abreast with the regulatory developments in each respective country in mitigating such risk.

BIMB Dana Al-Fakhim

- a. **Profit/Interest Rate Risk** – Generally, changes in the level of general interest rates* may cause prices of Sukuk to change inversely. This risk can be mitigated by holding Sukuk investment until maturity, thereby locking in its yields. The Manager also manages profit/interest rate risk by considering each Sukuk's sensitivity to profit/interest rate changes as measured by its duration.

*Note: The term interest rate does not in any way suggest that the Fund will invest in securities or instruments, which are Shariah non-

compliant. All investments carried out for this Fund are in accordance with principles of the Shariah.

Essentially, the investment of the Fund has been structured such that it is confined to short-term instruments in order to mitigate the impact of fluctuations in profit rates on the performance of the Fund over the short-term.

- b. **Counterparty Risk** – Counterparty risk refers to the risk that any financial institution that BIMB Dana Al-Fakhim may deal with, under certain circumstances, fails to perform its obligations when due. This will result in the Fund to experience significant losses.
- c. **Default Risk** – The risk arises when an issuer is unable to service any periodic obligations, e.g. profit payments and/or pay the principal amount when due. In such cases, investors will suffer significant losses.

This risk can be mitigated by investing in Sukuk, carrying a minimum rating of AA3 by RAM or AA- by MARC or its equivalent by any other recognised credit rating agencies or a minimum short-term credit rating of P1 by RAM or MARC-1 by MARC or its equivalent by any other recognised credit rating agency. This risk is also mitigated by credit analysis conducted by the Manager to determine the issuer's ability to service promised payments.

The investment of the Funds carries risks and we recommend that you read the entire Master Prospectus to assess the risks of the Funds.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not always possible to protect your investments against all risks. The various asset classes, such as equities and fixed income securities, generally exhibit different levels of risk. Please note that the returns of the Funds are not guaranteed.

Investors are reminded that the above list of risks may not be exhaustive and if necessary, they should consult their professional adviser(s).

Any soft commissions received from the broker which is goods and services in the form of research and advisory services that assist in the decision-making process related to the Fund's investments and are of demonstrable benefit to Unit Holders and any dealing with the broker is executed on terms which are the most favourable for the Fund, maybe retained by the Manager.

There are fees and charges involved and investors are advised to consider them before investing in the Funds.

6. TRANSACTION INFORMATION

6.1 DETERMINATION OF PRICES

6.1.1 Valuation Point

The valuation point is a particular point in time on a Business Day, as may be decided by the Manager where the NAV of the Fund is calculated. The Fund(s) will be valued at 5.00 p.m. on every Business Day (or “trading day” or “T” day).

6.1.2 Computation of NAV per Unit

The NAV per Unit is NAV of the Fund divided by the number of Units in Circulation, at the valuation point. The NAV of the Fund is determined by deducting the value of all the Fund’s liabilities from the value of all the Fund’s assets, at the valuation point. For the purpose of computing the annual management fee and annual trustee fee, the NAV of the Fund is inclusive of the management fee and trustee fee for the relevant day.

As an illustration:-

If the NAV of the Fund is RM90,000,000 and the number of Units in Circulation is 130,500,000, then the NAV per Unit is:-	<u>RM90,000,000</u> 130,500,000 = RM0.6896551724 = RM0.6897 (adjusted to 4 decimal places)
<i>Please note the above example is for illustration purpose only.</i>	

6.1.3 Forward Pricing

The sale and repurchase transactions will be executed at prices determined as at the end of the Business Day, i.e. Forward Pricing basis:

- a. The sale of Units by the Manager to an investor will be executed at the NAV per Unit at the end of the Business Day after the purchase request from the investor is received by the Manager; and
- b. The repurchase of Units by the Manager from an investor will be executed at the NAV per Unit at the end of the Business Day after the repurchase request from the investor is received by the Manager.

For any request received or deemed to have been received by the Manager prior to the Cut-off Time, set out under Sections 6.2.2 and 6.3.4 hereto, the

price would be based on the NAV per Unit at the end of the Business Day on which the money and/or request is received by the Manager. Any money and/or request received or deemed to have been received after the Cut-off Time would be considered as being transacted on the next Business Day and would be subjected to the Manager's pricing on the next Business Day.

6.1.4 Unit Pricing and SPR

The Manager adopts the SPR in calculating your investment. Single pricing equates to prices quoted and transacted on a single price (i.e. NAV per Unit).

Under the SPR, both the repurchase price and the selling price should be the NAV per Unit of the Fund as at the end of the Business Day following an application to purchase or request for repurchase of Units of the Fund is received by the Manager. The SPR will provide greater transparency to the investors on the charges imposed by the Manager and each distribution channel.

a. Purchase of Units

Making an Investment

When you invest in the Fund you are issued with Units. These Units represent your holding in the Fund. The number of Units that you will receive is determined by the NAV per Unit of the Fund. In addition to the amount invested in the purchasing of Units, a sales charge is also imposed.

Upon making an investment of the Fund, a sales charge of up to 5% of NAV per Unit for BIMB *i* Growth, BIMB Dana Al-Munsif, BIMB Dana Al-Falah, BIMB *i*-Tactical Fund (*formerly known as BIMB i Dividend Fund*) and BIMB *i* Flexi Fund will be imposed. No sales charge will be imposed for BIMB Dana Al-Fakhim. Assuming that investor A decides to invest RM30,000 in the Fund and the NAV per Unit of the Fund is RM0.5000.

Based on the illustration below, investor will have **57,142.86** Units credited into his investment account as shown below:-

		Investor
Amount Invested	=	RM30,000
NAV per Unit	=	RM0.5000
Sales Charge* rate	=	5%
Investment Amount	=	$\frac{\text{RM30,000}}{(1.0000 + \text{sales charge rate})}$
Net Investment	=	$\frac{\text{RM30,000}}{(1.0000 + 5\%)}$ $\frac{\text{RM30,000}}{1.0500}$ = RM28,571.43
Sales Charge amount	=	RM1,428.57
Units allotted to Investor	=	= RM28,571.43/NAV per unit = RM28,571.43/RM0.5000 = 57,142.86 units

The above sales charge is subject to any applicable taxes and/or duties as may be imposed by the government or other authorities from time to time.

Investors must not make payment in cash to any individual agent when purchasing Units of the Fund.

b. Redemption of Units

Redemption of Investment

A redemption charge is a charge that a management company of a unit trust fund may impose on unit holders when unit holders make a redemption request. Redemption charge is usually calculated as a percentage of the value of redemption (either in absolute RM total or RM total equivalent for number of Units intended to be redeemed at NAV per Unit).

Please note that the Manager does not intend to impose any redemption charge in respect of redemption request by the Unit Holders.

The following illustrations demonstrate the two (2) computation methods of redemption charge:-

Computation no. 1 – Redemption request by giving absolute RM total instruction

Redemption amount request	= RM10,000
Redemption charge	= 0%
NAV per Unit	= RM0.5000
Total Units to redeem	= Redemption Amount divided by NAV per Unit = RM10,000 / RM0.5000 = 20,000 Units

Computation no. 2 – Redemption request by giving Total Number of Units instruction

Redemption units request	= 10,000 Units
Redemption charge	= 0%
NAV per Unit	= RM0.5000
Total redemption purchase proceeds	= Units Redeemed x NAV per Unit = 10,000 Units x RM0.5000 = RM5,000

6.1.5 Incorrect Pricing

Subject to any relevant law, if there is an error in the pricing of the NAV per Unit of the Fund, the Manager will take immediate remedial action to correct the error. Rectification shall, where necessary, extend to the reimbursements of money as follows if the error is at or above the significant threshold of 0.50% of the NAV per Unit:

- a. if there is an over pricing in relation to the purchase and creation of Units, the Fund shall reimburse the Unit Holder;
- b. if there is an over pricing in relation to the redemption of Units, the Manager shall reimburse the Fund;
- c. if there is an under pricing in relation to the purchase and creation of Units, the Manager shall reimburse the Fund; and

- d. if there is an under pricing in relation to the redemption of Units, the Fund shall reimburse the Unit Holder or former Unit Holder.

The Manager retains the discretion whether or not to reimburse if the error is below 0.50% of the NAV per Unit or where the total impact on an individual account is less than RM10.00 in absolute amount. This is because the reprocessing cost may be greater than the amount of the adjustment.

6.2.2 Minimum Redemption Amount

The Manager does not impose any minimum amount for any redemption transaction. However, the minimum amount for any redemption transaction would be subject to the minimum holding requirement as set out in section 6.2.5.

A Unit Holder may redeem part or all of the Units held on any Business Day by completing a redemption form subject to him maintaining a

minimum holding in his account at any time. Below are the details of operating day and hours and Cut-off Time for submitting redemption request:

For a request to repurchase Units that we received or deemed to have received on or before the stated Cut-off Time for transaction, Units are repurchased at the NAV per Unit at the end of the Business Day after receipt of a redemption request and acceptance by the Manager before the Cut-off Time.

The Cut-off Time will be determined based on the time and stamping date made by our office. Where the repurchase request is received after the above mentioned Cut-off Time, the request will be deemed as having received on the next Business Day.

The amount of redemption will be paid within ten (10) days from the day the Manager received the repurchase request and the Trustee's obligation is discharged once it has paid the amount to the Manager.

6.2.3 Switching Between Funds

You may switch your Units from the Fund to other funds, subject to you maintaining a minimum holding balance at all times to keep your account active.

You may move your investment between funds managed by BIMB Invest in response to the change of the financial goals or market conditions subject to the fees and conditions for switching as set out below. You only need to complete and return the switching form to BIMB Invest, any Bank Islam branches or any of our authorized IUTAs.

Example:-

i. 1st Time	: Nil
ii. 2nd Time onwards	: RM25 per transaction (switching fee is exempted for investors having total investment with BIMB Invest of RM100,000 and above)

The following illustrations demonstrate the computation methods of switching:

- a. Switching for the first time.

From BIMB Dana Al-Falah to BIMB Dana Al-Fakhim.

Switching fee	= Nil
NAV per Unit of BIMB Dana Al-Fakhim	= RM0.5050
Total Units after switching	= RM5,250.00 / RM0.5050 = 10,396.04 Units

- b. Switching for the second time onwards.

From BIMB Dana Al-Falah to BIMB Dana Al-Munsif.

BIMB Dana Al-Falah	= 10,000 Units
NAV per Unit of BIMB Dana Al-Falah	= RM0.5250
Total value of BIMB Dana Al-Falah	= 10,000 Units x RM0.5250 = RM5,250.00
Less: Switching fee* (RM25)	= RM25.00
Total value of BIMB Dana Al-Falah	= RM5,250.00 – RM25.00 = RM5,225
NAV per Unit of BIMB Dana Al-Munsif	= RM0.5150
Total Units Dana BIMB Al-Munsif after switching	= RM5,225 / RM0.5150 = 10,145.63 Units

****Note: The above switching fee is subject to any applicable taxes and/or duties as may be imposed by the government or other authorities from time to time.***

7. UNDERSTANDING INCOME DISTRIBUTION AND REINVESTMENTS PLANS

7.1 DISTRIBUTION POLICY

Distribution, if any, are declared at the end of each financial year of each Fund for any specified period, as may be approved by the Trustee.

Name of Funds	Income Distribution Policy
BIMB i Growth	As income distribution is the secondary objective of the Fund, distribution of income (if any) is incidental.
BIMB Dana Al-Fakhim	The Fund shall distribute income* (if any) on a monthly basis. <i>*Note: The distribution of income will automatically be reinvested. Hence, Unit Holders will receive additional Units from the reinvestment of income distribution.</i>
BIMB Dana Al-Munsif	The Fund intends to pay out annual income distribution to Unit Holders if sufficient investment income has been accumulated during the year.
BIMB Dana Al-Falah	Distribution of income* (if any) is incidental. <i>*Note: The distribution of income will automatically be reinvested. Hence, Unit Holders will receive additional Units from the reinvestment of income distribution.</i>
BIMB i-Tactical Fund (formerly known as BIMB i Dividend Fund)	Distribution of income (if any) is incidental.
BIMB i Flexi Fund	Distribution of income is incidental. <i>Note: The distribution of income will automatically be reinvested. Hence, Unit Holders will receive additional Units from the reinvestment of income distribution.</i>

The amount of net income available for distribution shall be expressed in 'sen per Unit' basis and shall be paid to all Unit Holders in proportion to their holdings of Units in the Fund.

The Unit Holder is entitled to receive the distribution regardless of when those Units were purchased as long as it is done before the end of the Accrual Period.

7.2 MODE OF PAYMENT FOR INCOME DISTRIBUTION

It is intended that distribution of income to Unit Holders, (if any) will be based on Units held on entitlement date via the following option: -

- credited into their bank accounts, or in the absence of the bank accounts, paid via cheque;
- reinvestment for further Units into investor's account.

Where there are written instructions to reinvest the income, the Manager will reinvest the monies into additional Units of the Funds at the NAV per Unit as at the close of the Business Day of the distribution declaration date. Should the Unit Holder wish to realise the income, he has to redeem the equivalent number of Units.

7.3 HOW IS INCOME DISTRIBUTION CALCULATED?

Distribution of income should only be made from net realised gain or net realised income.

Assuming the Fund declare an income distribution of 5 sen per Unit to be paid-out in cash on 31 August 2019, the impact of before and after the distribution, using hypothetical figures is shown below:-

	Before Distribution (RM)	After Distribution (RM)
NAV per Unit	RM 0.5500	RM 0.5000

Before payment of the distribution, a Unit Holder who owns 1,000 Units of the Fund valued its holding at RM550 (1,000 Units x RM0.5500). After distribution is paid-out, that Unit Holder will own 1,000 Units of the Fund worth RM500, plus cash in hand of RM50.

7.4 WHAT OPTIONS DO I HAVE IN RECEIVING AN INCOME DISTRIBUTION?

If an investor elects the option of distribution reinvestment, he will receive distribution by way of additional Units.

The distribution reinvestment plan ensures that your income distributions are automatically reinvested to purchase additional Units in the same Fund. Distribution reinvestment will be at NAV per Unit (Ex Distribution), computed at the end of the Business Day of the distribution declaration date. No sales charge will be imposed on reinvestments of distribution proceeds.

Benefits of the Distribution Reinvestment Plan and Auto-Reinvestment of Distribution

- Income reinvested without incurring sales charge.
- Convenient way of investing income each year.

7.5 DISTRIBUTION REINVESTMENT PLAN FOR THE FUNDS

If the investors would like the income distribution to be reinvested, they would have to tick the box marked ***“Income Reinvestment”*** in investment particulars section of the Application Form (except for BIMB Dana Al-Falah, BIMB Dana Al-Fakhim and BIMB *i* Flexi Fund).

7.6 UNCLAIMED INCOME POLICY

Any distribution cheques that are not presented after a period of six (6) months (from the date of the distribution cheques), the Manager reserves the right to reinvest the distribution on behalf of the Unit Holders in additional Units based on the NAV per Unit at the Valuation Point on the last “Business Day” of the month immediately after the six (6) months period, or any such date as may be determined by the Manager.

7.7 GENERAL UNCLAIMED MONEYS POLICY

Any redemption proceeds payable to Unit Holders which remain unclaimed after such period (currently being one (1) year) will be surrendered to the registrar of unclaimed money in accordance with the requirement of the Unclaimed Moneys Act 1965.

Unit prices and distributions payable, if any, may go down as well as up.

BIMB Invest has in place policies and procedures to regulate its employees' securities dealings. The Trustee has in place policies and procedures to deal with conflict of interest, if any. Any related party transaction is to be made on terms which are best available to the Fund and which are not less favorable to the Fund than an arms-length transaction between independent parties.

Subject to any local regulations, the Trustee and/or its related group of companies may deal with each other, the Fund or any Unit Holder or enter into any contract or transaction with each other, the Fund or any Unit Holder or retain for its own benefit any profits or benefits derived from any such contract or transaction or act in the same or similar capacity in relation to any other scheme.

Dear Sirs

Taxation of the unit trust and unit holders

This letter has been prepared for inclusion in this Master Prospectus in connection with the offer of units in the unit trust listed below (hereinafter referred to as "the Fund").

1. BIMB Dana Al-Falah
2. BIMB Dana Al-Fakhim
3. BIMB Dana Al-Munsif
4. BIMB i Growth

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect

from the year of assessment 2016.

Under Section 2(7) of the MITA, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*.

The effect of this is that any gains or profits received (hereinafter referred to as "profits") and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*, will be accorded the same tax treatment as if they were interest.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as 'permitted expenses') not directly related to the production of income, as explained below.

"Permitted expenses" refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

- where
- A is the total of the permitted expenses incurred for that basis period;
 - B is gross income consisting of dividend¹, interest and rent chargeable to tax for that basis period; and
 - C is the aggregate of the gross income consisting of dividend¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**

All Malaysian-sourced dividends should be exempt from income tax.

- **Malaysian sourced interest (profits)**

- (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
- (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
- (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
- (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013²;
- (v) interest derived from Malaysia and paid or credited by any licensed development financial institution prescribed under the Development Financial Institutions Act 2002²;
- (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)³; and
- (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.

² Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the Income Tax Act shall not apply to a wholesale fund which is a money market fund.

³ Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

- **Discount**

Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

Foreign sourced income

Dividends, profits and other income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Gains from the realisation of investments

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

Implementation of Sales and Service Tax (“SST”)

The new Sales and Service Tax (“SST”) was implemented effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a “taxable person”, who exceeds the required annual threshold (in most cases RM500,000 per annum) and the services qualify as “taxable services”).

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realize a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. Taxable distributions

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

Such distributions carry a tax credit, which will be available for set -off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

Unit holders	Malaysian income tax rates
<p>Malaysian tax resident:</p> <ul style="list-style-type: none"> • Individual and non-corporate unit holders (such as associations and societies) • Co-operatives⁴ • Trust bodies 	<p>Progressive tax rates ranging from 0% to 28%⁵</p> <p>Progressive tax rates ranging from 0% to 24%</p> <p>24%</p>

⁴ Pursuant to Paragraph 12(1), Schedule 6 of the MITA, the income of any co-operative society

–

(a) in respect of a period of five years commencing from the date of registration of such co-operative society; and

(b) thereafter where the members' funds [as defined in Paragraph 12(2)] of such co-operative society as at the first day of the basis period for the year of assessment is less than seven hundred and fifty thousand ringgit, is exempt from tax.

⁵ Based on the Finance Bill 2019, it is proposed that a new tax bracket will be introduced, where individual and non-corporate unit holders will be subjected to tax at 30% on chargeable income exceeding RM2,000,000, an increase of two percentage points from 28%, effective from the year of assessment 2020.

Unit holders	Malaysian income tax rates
<ul style="list-style-type: none"> • Corporate unit holders <ul style="list-style-type: none"> (i) A company with paid up capital in respect of ordinary shares of not more than RM2.5 million (at the beginning of the basis period for the year of assessment)⁶ (ii) Companies other than (i) above 	<ul style="list-style-type: none"> • First RM500,000 of chargeable income @ 17%⁷ • Chargeable income in excess of RM500,000 @ 24% • 24%

Note 1:

Non-resident unit holders may be subject to tax in their respective countries depending on the provisions of the tax legislation in the respective countries and any existing double taxation arrangements with Malaysia.

⁶ A company would not be eligible for the 18 % tax rate on the first RM500,000 of chargeable income if: -

- (a) more than 50% of the paid up capital in respect of the ordinary shares of the company is directly or indirectly owned by a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;
- (b) the company owns directly or indirectly more than 50% of the paid up capital in respect of the ordinary shares of a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;
- (c) more than 50% of the paid up capital in respect of the ordinary shares of the company and a related company which has a paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment is directly or indirectly owned by another company.

⁷ Based on the Finance Bill 2019, it is proposed that with effect from the year of assessment 2020:

- (a) the chargeable income threshold subject to the concessionary income tax rate of 17% be increased from RM500,000 to RM600,000; and
- (b) the abovementioned concessionary tax rate be given only to a company having gross business income from one or more sources of not more than RM50 million for the relevant year of assessment.

⁸ Based on the Finance Bill 2019, it is proposed that the tax rate be increased to 30%, effective from the year of assessment 2020.

Gains from sale of units

Gains arising from the realisation of investments will generally not be subject to income tax in the hands of unit holders unless they are insurance companies, financial institutions or traders/ dealers in securities.

Unit splits and reinvestment of distributions

Unit holders may also receive new units as a result of unit splits or may choose to reinvest their distributions. The income tax implications of these are as follows:

- Unit splits - new units issued by the Fund pursuant to a unit split will not be subject to income tax in the hands of the unit holders.
- Reinvestment of distributions - unit holders may choose to reinvest their income distribution in new units by informing the Manager. In this event, the unit holder will be deemed to have received the distribution and reinvested it with the Fund.

We hereby confirm that, as at the date of this letter, the statements made in this letter correctly reflect our understanding of the tax position under current Malaysian tax legislation and the related interpretation and practice thereof, all of which are subject to change, possibly on a retrospective basis. Dear Sirs

Re: Taxation of the Funds and Unit Holders

This letter has been prepared for inclusion in this Master Prospectus in connection with the offer of units in the BIMB / Flexi Fund and BIMB *i*-Tactical Fund ("the Funds").

Taxation of the Funds

Income Tax

The Funds are unit trusts for Malaysian tax purposes. The taxation of the Funds are therefore governed principally by Sections 61 and 63B of the Income Tax Act, 1967 ("the Act").

Subject to certain exemptions, the income of the Funds in respect of investment income derived from or accruing in Malaysia is liable to income tax at the rate of 24% effective Year of Assessment ("YA") 2016.

Gains from the realisation of investments by the Funds will not be subject to income tax in Malaysia. However, such gains may be subject to tax in the country from which it is derived.

Interest income earned by the Funds from the following are exempt from tax:-

- any savings certificates issued by the Government; or
- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013^{N1}; or
- any development financial institution regulated under the Development Financial

^{N1} Effective from 1 January 2019, the exemption shall not apply to the interest paid or credited to a unit trust that is a wholesale fund which is a money market fund.

Institutions Act 2002^{N1}; or

- sukuk originating from Malaysia, other than convertible loan stocks, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission, or approved by the Labuan Financial Services Authority^{N2}.

The Funds may receive dividends, interest and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Discounts earned by the Funds from the following are also exempt from tax:-

- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Single tier Malaysian dividends received by the Funds are exempt from tax and expenses in relation to such dividend income are disregarded.

Tax deductions in respect of the Funds' expenses such as manager's remuneration, expenses on maintenance of register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage ("permitted expenses") are allowed based on a prescribed formula subject to a minimum of 10% and a maximum of 25% of the total permitted expenses.

Real Property Gains Tax ("RPGT")

Gains on disposal of investments by the Funds will not be subject to income tax in Malaysia. However, such gains may be subject to RPGT in Malaysia, if the gains are derived from sale of Malaysian real properties and shares in Malaysian real property companies (as defined). Such gains would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

Sales Tax and Service Tax

The Goods and Services Tax ("GST") is replaced by Sales Tax and Service Tax effective from 1 September 2018.

Under the Sales Tax Act 2018, Service Tax Act 2018 and the subsidiary legislations, the sales tax rate for taxable goods is 5% or 10% while the service tax rate for taxable services is generally 6%. There are certain goods which are exempted from sales tax.

^{N2} Effective from YA 2017, income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions.

The issue, holding or redemption of any unit under a trust fund does not fall within the list of taxable services under the First Schedule of the Service Tax Regulations 2018 and hence, is not subject to service tax. The investment activities of the Funds such as buying and selling of securities and deposits in financial institutions are also not subject to service tax. As such, if the Funds are only deriving income from such activities, the Funds is not liable to be registered for service tax.

However, certain expenses incurred by the Funds such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007. The service tax incurred by the Funds is a cost to the Funds and is not recoverable, unlike the GST input tax which is claimable under the GST regime.

Based on the Finance Act 2018 which has been gazetted on 27 December 2018 the imposition and scope of service tax is now widened to include any imported taxable service. This is effective from 1 January 2019.

Taxation of Unit Holders

Income Tax

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Funds, to the extent that this is distributed to them. The income distribution from the Funds may carry with it applicable tax credits proportionate to each unit holder's share of the total taxable income in respect of the tax paid by the Funds. Unit holders will be entitled to utilise the tax credit as a set off against the tax payable by them. Any excess over their tax liability will be refunded to the unit holders. No other withholding tax will be imposed on the income distribution of the Funds.

Currently, corporate unit holders, resident or non-resident in Malaysia, would be taxed at the corporate tax rate of 24% (effective from YA 2016), on distributions of income from the Funds to the extent of an amount equivalent to their share of the total taxable income of the Funds. Corporate unit holders in Malaysia with paid-up capital in the form of ordinary shares of RM2.5 million and below will be subject to a tax rate of 17% (effective from YA 2019) on chargeable income of up to RM500,000. For chargeable income in excess of RM500,000, the tax rate of 24% is still applicable.

However, the said tax rate of 17% on chargeable income of up to RM500,000 would not apply if more than 50% of the paid up capital in respect of ordinary shares of that corporate unit holder is directly or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company.

Based on the Finance Bill 2019, the chargeable income which is subject to the concessionary income tax rate of 17% will be increased from RM500,000 to RM600,000 and it is given only to corporate unit holders having gross business income for the relevant year of assessment of not more than RM50 million, in addition to the share capital requirement. The amendment is effective from YA 2020.

Currently, individuals and other non-corporate unit holders who are resident in Malaysia will be subject to income tax at scale rates. The scale tax rates range from 0% to 28% with effect from YA 2016. Based on the Finance Bill 2019, a chargeable income band exceeding RM2,000,000 has been introduced at a tax rate of 30%. The amendment is effective from YA 2020.

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, are subject to Malaysian income tax at the rate of 28% with effect from YA 2016. The income tax rate will be increased from 28% to 30% based on the Finance Bill 2019, effective from YA 2020. Non-resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdiction.

The distribution of single-tier Malaysian dividends and tax exempt income by the Funds will not be subject to tax in the hands of the unit holders in Malaysia. Distribution of foreign income will also be exempt in the hands of the unit holders.

Units split by the Funds will be exempt from tax in Malaysia in the hands of the unit holders.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfer or redemption of the units are generally treated as capital gains which are not subject to income tax in Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

Sales Tax and Service Tax

Only taxable services listed in the First Schedule of the Service Tax Regulations 2018 are subject to service tax, which exclude investment income or gains.

However, legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

Based on the Finance Act 2018 which has been gazetted on 27 December 2018 the imposition and scope of service tax is now widened to include any imported taxable service. This is effective from 1 January 2019.

The tax position is based on our understanding and interpretation of the Malaysian

tax legislations and proposals as they stand at present. All prospective investors should not treat the contents of this letter as advice relating to taxation matters and are advised to consult their own professional advisers concerning their respective investments.

Yours faithfully

UNIT TRUST FINANCING RISK DISCLOSURE STATEMENT**

Investing in a unit trust fund with financing or borrowed money is more risky than investing with your own savings.

You should assess if financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

- I. The higher the margin of financing (that is, the amount of money you receive via financing for every ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
- II. You should assess whether you have the ability to service the payments on the proposed financing. If your financing is a variable rate financing, and if profit rates rise, your total payment amount will be increased.
- III. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the time prescribed, your units may be sold towards the settlement of your financing.
- IV. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of financing. You should therefore carefully study the terms and conditions before you decide to take financing. If you are in doubt about any aspect of this risk disclosure statement or the terms of the financing, you should consult the institution offering the financing.
