Investment Policies & Strategies	<p>The Fund will be investing in a minimum of 90% of the Fund’s NAV into the Target Fund and a maximum of 10% of the Fund’s NAV into Islamic liquid assets including Islamic deposits and Islamic money market instruments. Accordingly, the Fund will have a passive strategy as all the investment decisions will be made at the Target Fund level.</p> <p>The Fund will not adopt any temporary defensive strategy during adverse market condition as the Fund adopts a passive strategy of investing a minimum of 90% of the Fund’s NAV into the Target Fund at all times. This strategy allows the Fund to mirror the performance of the Target Fund but may result in the Fund being exposed to the risk of its NAV declining when the Target Fund’s net asset value declines.</p> <p>The Fund’s investment will be evaluated bi-monthly to ensure that the investments are in line with the principles of ESG and the overall impact of the investments is consistent with any other sustainability considerations. ESG considerations would not be applicable to the selection of Islamic deposits and Islamic money market instruments.</p> <p>The Manager may substitute the Target Fund with another ESG fund that has similar objective with the Fund and the said ESG fund must meet the requirements of the</p>

Guidelines on Sustainable and Responsible Investment Funds. However, a replacement of the Target Fund would require Unit Holders' approval.

The Manager may use Islamic derivatives instruments such as Islamic options, Islamic future contracts, Islamic forward contracts and Islamic currency swaps for the purpose of hedging. In the event of a downgrade in the rating of a counterparty of an over-the-counter Islamic derivative, the Manager reserve the right to deal with the over-counter Islamic derivative in the best interest of the Unit Holders.

The Fund's exposure to Islamic derivatives, if any, will be calculated based on commitment approach as disclosed in Section 3.8 of Prospectus of the Fund under the heading "Use of Islamic Derivatives".

S-Ray® and Shariah Screening Methodology

The Target Fund leverages S-Ray® data and the AAOIFI Standards to construct its Investment Universe.

S-Ray® Screening:

S-Ray® is a proprietary tool of ESG Book that measures the sustainability of global equities worldwide. Please refer to <https://www.esgbook.com> for further information. S-Ray® evaluates all global stocks which have successfully passed the liquidity screening step of the investment process of the Target Fund based on the:

- **GC score:** The GC score constitutes an assessment of each company based on the four core principles of the United Nations Global Compact (UNGC). Companies that are in breach of the UNGC are removed from the investment universe. Companies in the bottom 5% of global stocks ranked by ESG Book's GC score are excluded at universe construction.
- **ESG score:** Stocks which have successfully passed the GC score screening step are evaluated based on their ESG score. The ESG score analyses corporate performance based on sector-specific financially material environmental, social and governance (ESG) criteria.

The total ESG score is calculated as a weighted sum of the features scores using materiality-based weights. The E, S and G pillar sub-scores are calculated by considering only the features within each of these themes.

The three pillar scores and the total ESG score are scaled between 0 and 100 with higher scores indicating better performance. The ESG score is calibrated using the principle of financial materiality and can be used to help compare companies on their ability to outperform on a risk-adjusted basis over the long-run.

Note: Please refer to the Prospectus under 3.4.1 S-Ray® and Shariah Screening Methodology for further details on ESG Book scores.

- **Preferences Filter:** Stocks which have successfully passed the ESG Score screening step are evaluated based on their business involvement.

Shariah Screening:

All global stocks which have successfully passed the S-Ray® screening step of the Investment Universe construction are assessed to eliminate stocks which do not comply with AAOIFI Standards. This is achieved by performing further business involvement and financial screens:

- a. **Business involvement screens:** : Non-permissible income must not exceed 5% of total income in order to pass the business involvement screen. This involves incomes derived from the following business involvement in Shariah non-compliant or conventional interest-based banking, financial services, real estate, insurance, mortgage and lease, alcohol, tobacco or pork products, entertainment (hotels, casino/gambling, pornography/adult entertainment, cinema and music), arms manufacturing (weapons and defence) and trading and hedging of gold and silver on a deferred basis. In addition, companies in the coal sector are excluded from the Investment Universe.
- b. **Financial screens:** The strategy shall only invest in companies with a non-permissible income not more than 5% of total income, an interest-bearing

	investment by market capitalization ratio less than 30%, an interest-bearing debt by market capitalization ratio less than 30%. The Target Fund is prohibited to invest in preference shares.																														
Sustainable and Responsible Investment	The Target Fund's investment policy and strategies adopt UNGC principles and ESG performance indicators as stated above. If the Target Fund's investments become inconsistent with its investment policy and strategies, the Target Fund Manager shall dispose the investment(s) as soon as practicable within three (3) months after the breach, in case of violation of the investment policy, or at the next Investment Universe rebalancing (i.e. quarterly) in case of poor UNGC/ESG performance.																														
Asset Allocation	<ul style="list-style-type: none"> A minimum of 90% of the Fund's NAV to be invested in the Target Fund; and A maximum of 10% of the Fund's NAV to be invested in Islamic liquid assets including Islamic deposits, and Islamic money market instruments. 																														
Benchmark	<p>FTSE Shariah All-World Index</p> <p>The basis for selecting the above benchmark is to reflect the Fund's asset allocation and investment objective.</p> <p>The above benchmark is only used as a reference for the purpose of investment performance comparison. The Fund is not managed against the benchmark. Please note that the risk profile of the Fund may be higher than the risk profile of the benchmark.</p> <p>Source: https://www.ftserussell.com/products/indices/global-shariah</p> <p>Unit Holders may contact the Manager for more information on the performance benchmark.</p> <p><i>Note:</i> The performance benchmark of the Fund will be changed from MSCI ACWI Islamic Index Net Return to FTSE Shariah All-World Index effective as per the date of the Replacement Prospectus due to the discontinuation of MSCI index licensing.</p>																														
Distribution Policy	Distribution of income, if any, is incidental. Please refer to Section 3.10: Mode of Income Distribution in the Prospectus for details.

5. What are the possible outcomes of my investment?

The investor may gain from the appreciation of unit price as a result of the increase in value of the underlying and/or accrual of profit earned.

However, investment involves risk. The value of the Fund and its distribution (if any) may rise or fall. These risk factors, among others, may cause you to lose part or all of your investment.

6. What are the key risks associated with this product?

General Risks of Investing in the Fund

- **Market Risk** - This risk arises due to fluctuations in market value of investments. Such fluctuations occur because of factors that affect the entire market. Market risk cannot be eliminated by diversification. It stems from the fact that there are economy-wide perils which threaten all businesses. Hence investors will be exposed to market uncertainties, and no matter how many equities are held, fluctuations in the economy, political and social environment will affect the market price of the investments.
- **Performance Risk** - The performance of the Fund depends on the financial instruments that the Fund invest. If the instruments do not perform within expectation or if there is a default, then the performance of the Fund will be impacted negatively. The performance of the Fund may also be impacted if the allocation of assets is not properly done. On that basis, there is never a guarantee that investing in the Fund will produce the desired investment returns.
- **Financing Risk** - This risk occurs when the investor obtains financing provided by any financial institution to finance the purchase of the Fund. The financial institution may require additional collateral (when Units are used as collaterals) should the price of Units falls which the investor may be unable to provide. In addition, the investor may not be able to fulfill certain financing obligations due to unforeseen circumstances.

Other financing risk factors to consider include:

- a. the higher the margin of financing, the greater the potential for losses as well as gains; and
 - b. if the financing taken is a variable profit rate financing and profit rates rise, the total financing amount will increase.
- **Manager Risk** - This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant guidelines due to factors such as human error, fraud or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

To mitigate the risk, the Manager practices the following:

- a. Strict adherence to the Fund's investment objective, policies and strategies as stated in this Prospectus and Deed.
 - b. Internal controls and compliance monitoring is in place to mitigate the risk. Periodical compliance reporting to the management committee, investment committee, Shariah Adviser, board audit and risk committee and the board of directors;
 - c. Regular review on its internal policies, system capabilities and maintain strict segregation of duties in mitigating this risk.
- **Risk of Non-Compliance** - This is a risk where the Fund may be mismanaged due to the Manager's non-compliance with the provisions set out in the Deed or this Prospectus or the laws/guidelines governing the Fund or the Manager's own internal procedures or where the employee of the Manager acts fraudulently or dishonestly in managing the Fund. This may also occur when the Manager does not adhere to the investment mandate of the Fund. To mitigate this risk, the Manager will manage the Fund with strict adherence to the Fund's investment objective, policies and strategies as stated in this Prospectus and the Deed. The compliance team of the Manager oversees the entire compliance matters, including monitoring of adherence to any non-compliance with regulations, guidelines and internal controls.
 - **Shariah Non-Compliance Risk** - This risk refers to the risk that the Fund not conforming to Shariah guidelines. The Manager (as advised by the Shariah Adviser) would be responsible for ensuring that the Fund is managed and administered in accordance with Shariah guidelines.

Any Shariah non-compliant investment made by the Fund due to error of the administration shall be disposed of or withdrawn with immediate effect, if possible, or otherwise within one (1) calendar month of knowing the status of the investment. Any gain resulting from the said disposal shall be channelled to *baitulmal* and/or charitable bodies as advised by the Shariah Adviser whilst any loss is to be borne by the Manager.

Specific Risks Associated with Investing in the Fund

- **Concentration Risk** - This Fund is a feeder fund which invests in a Target Fund. Any adverse effect on the Target Fund will inevitably affect the Fund. The Fund's performance is also dependent on the performance of the Target Fund. This risk may be mitigated as the Manager is able to substitute the Target Fund with another ESG fund that has similar objective with the Fund and the said ESG fund must meet the requirements of the Guidelines on Sustainable and Responsible Investment Funds. However, a replacement of the Target Fund would require Unit Holders' approval.
- **Liquidity Risk** - Liquidity risk is the risk that the units of the Target Fund cannot be readily sold and converted into cash. This can occur when there is a restriction on realization of units of the Target Fund. The Target Fund Manager may suspend the realisation of shares of the Target Fund or delay the payment of realisation proceeds in respect of any realisation request received, during any period in which the determination of the net asset value of the Target Fund is suspended. As a result, the Fund may not be able to receive the redemption proceeds in a timely manner which in turn may delay the

payment of redemption proceeds to the Unit Holders. The Manager will maintain a sufficient liquidity level for the purposes of meeting redemption requests.

- **Country Risk** - Investments of the Fund (i.e. the Target Fund, which is domiciled in Luxembourg) may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of Luxembourg. These factors may have a negative impact on the Fund and consequently adversely affect the Fund's NAV.
- **Currency Risk** - As the Fund invests in foreign investments (i.e. the Target Fund which is denominated in foreign currency), the Fund would be exposed to currency risk. This is the risk associated with investments that are denominated in currencies that are different from the Base Currency. When the currency of foreign investments depreciates against the Base Currency, the Fund will suffer currency losses. This is in addition to any capital gains and/or losses from the investment.

For the RM Hedged Class, the Fund will be investing in the Target Fund which is denominated in USD, however investors in the RM Hedged Class will be subject to lower currency risk at the Fund level as the Manager will mitigate this risk by hedging the foreign currency exposure. Investors should note that by employing this hedging, investors would not be able to enjoy the additional currency gains when USD moves favorably against the RM. Additional transaction cost of hedging will also be borne by investors in the RM Hedged Class.

- **Target Fund Manager Risk** - As a feeder fund, the Fund invests in the Target Fund which is managed by the Target Fund Manager. The Target Fund Manager has absolute discretion over the Target Fund's investment technique and knowledge, operational controls and management. In the event of any mismanagement of the Target Fund or the Management Company of the Target Fund, the NAV of the Fund, which invests substantially all of its assets into the Target Fund, would be affected adversely. In the event if such a situation arises, the Manager reserves the right to substitute the Target Fund with another ESG fund that has similar objective with the Fund and the said ESG fund must meet the requirements of the Guidelines on Sustainable and Responsible Investment Funds. However, a replacement of the Target Fund would require Unit Holders' approval. To mitigate this risk, the Manager will review and monitor the Target Fund to comply with the Guidelines and Guidelines on Sustainable and Responsible Investment Funds.
- **SRI Investments Risk** - This is the risk that the Manager may not correctly apply the relevant criteria resulting out of the ESG analysis or that the Fund may have indirect exposure to investments which do not meet the relevant criteria (based on UNGC principles and ESG factors). This may result in potential losses to the Fund in the event that such investments are disposed at unfavourable prices due to the violation of the investment policy and strategies of the UNGC principles and ESG factors. If the Fund's investments become inconsistent with its investment policy and strategies of UNGC principles and ESG factors, the Manager shall deal with the investment(s) in accordance with Section 3.4.2 of the Prospectus.
- **AI Driven Investment Approach Risk** - Data is now produced in unprecedented quantities, creating a need for intelligent machine to discover subtle relationships which can be translated into alpha opportunities. AI may be able to better deal with unstructured and alternative data, particularly in textual form and avoid human pre-conceptions and biases. AI may be able to better adapt to dynamically changing markets and is scalable across a broad variety of markets. AI driven approach is adopted in this Fund. Nevertheless, there is no guarantee that the research capabilities will contribute to positive investment outcome of the Fund.
- **Shariah Status Reclassification Risk** - This risk refers to the risk of a possibility that the currently held Islamic collective investment scheme or Islamic deposits or Islamic money market instruments invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such investments. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the said investments.
- **Sustainability Risk** - Sustainability Risk mean an environmental, social, or governance event or condition that, if it occurs, could potentially or actually cause a material negative impact on the value of the Target Fund's investment. Sustainability Risks can either represent a risk of their own or have an impact on other risks and may contribute significantly to risks, such as market risks, operational risks, liquidity risks or counterparty risks.

Assessment of Sustainability Risks is complex and may be based on environmental, social, or governance (ESG) data, which is difficult to obtain and incomplete, estimated, out of date or otherwise materially inaccurate. Even when identified, there can be no guarantee that these data will be correctly assessed.

Applying ESG and sustainability criteria to the investment process of the Target Fund may exclude securities of certain issuers for non-investment reasons and therefore some market opportunities available to funds that do not use ESG or sustainability criteria may be unavailable for the Target Fund, and the Target Fund's performance may at times be better or worse than the performance of comparable funds that do not use ESG or sustainability criteria. The selection of assets may in part rely on a proprietary ESG scoring process or ban lists that rely partially on third party data. The lack of common or harmonised definitions and labels integrating ESG and sustainability criteria at the level of the European Union may result in different approaches by the Fund Manager of the Target Fund when setting ESG objectives and determining that these objectives have been met by the Target Fund. This also means that it may be difficult to compare strategies integrating ESG and sustainability criteria to the extent that the selection and weightings applied to select investments may to a certain extent be subjective or based on metrics that may share the same name but have different underlying meanings. Investors in the Target Fund should note that the subjective value that they may or may not assign to certain types of ESG criteria may differ substantially from the methodology of the Target Fund's Fund Manager. The lack of

harmonised definitions may also potentially result in certain investments not benefitting from preferential tax treatments or credits because ESG criteria are assessed differently than initially thought.

The Management Company of the Target Fund analyses Sustainability Risks as part of its risk management process. The Management Company of the Target Fund and the relevant Fund Manager of the Target Fund identify, analyse and integrate Sustainability Risks in their investment decision-making process as they consider that this integration could help enhance long-term risk adjusted returns for investors, in accordance with the investment objectives and policies of the Target Fund. The Fund Manager of the Target Fund consider that Sustainability Risks are likely to have a moderate impact on the value of the Target Fund's investments in the long term.

In addition to the ESG, UNGC and business involvement screens, the strategy also incorporates a climate-related screen. Companies in high greenhouse gas emitting sectors are excluded, unless on a 2°C climate pathway.

**Investors are reminded that the above list of risks may not be exhaustive and if necessary, investors should consult their adviser(s), e.g. bankers, lawyers, stockbrokers for a better understanding of the risks.
Note: Please refer to the Prospectus for further details of each risk.**

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are advised to read the Prospectus to assess the risks associated with the Fund. Please consult your professional advisers(s) for a better understanding of the risks, if necessary.

If your investments are made through the distributor (i.e. the institutional unit trust adviser ("IUTA") via a nominee system of ownership), you would not be deemed to be a unit holder under the Deed and as a result, may not exercise all the rights ordinarily conferred to a unit holder (e.g. the right to call for unit holders' meetings and the right to vote at a unit holders' meeting).

VALUATIONS AND EXITING FROM INVESTMENT

9. How often are valuations available?

Valuation of the Fund is carried out at the end of each Business Day. As forward pricing method is used for this Fund, any request received on or before 4.00p.m. on any Business Day, will be processed based on the NAV per Unit at the end of that Business Day which will be computed on T+1.

For any request received after 4.00 p.m. (Malaysia time) on any Business Day, the request will be processed based on the NAV per Unit at the end of the next business day which will be computed on T+1.

All foreign assets will be translated into the Base Currency and any currency translation involved for NAV computation will be based on bid exchange rate quoted by Bloomberg/Reuters at 4.00 p.m. (United Kingdom time) which is equivalent to 11.00 p.m. or 12.00 a.m. midnight (Malaysia time) on the same day, or such time stipulated in the investment management standards issued by Federation of Investment Managers Malaysia (FIMM).

You may obtain the daily NAV per unit of the Fund from BIMB Investment's website at www.bimbinvestment.com.my. Alternatively, you may contact our customer service via toll free number 1-800-88-1196 or email to marketing.bimbinvest@bankislam.com.my for any assistance.

10. How can I exit from this investment and what are the risks and costs involved?

- Unit Holders may redeem their investments in the Fund on any Business Day by completing the redemption form or such other manners as we may accept and returning it to us on any Business Day. The redemption form is available at our head office and also offices of the authorized distributors. Investors who invest via our BEST Invest App may redeem their investments in the Fund via our BEST Invest App.

Redemption request must reach the Manager before the cut-off time of 4.00 p.m. on any Business Day (or "T Day". The Manager will process the redemption request based on the NAV per Unit of a Class for that Business Day. Any redemption request received by the Manager at or after 4.00 p.m., the Manager will process the redemption request based on the NAV per Unit computed on T+1.

As the Fund is a feeder fund which invest substantially in the Target Fund and offer Classes of Units in currencies that are different from the Base Currency, the redemption amount received by the Fund may be subject to currency conversion before the redemption proceeds are paid. In any event, Unit Holders will be paid within five (5) Business Days from the Fund's receipt of the redemption proceeds from the Target Fund, which would be within ten (10) Business Days after the redemption application is received and processed by the Manager.

- A cooling-off period of six (6) Business Days is accorded to an investor who is investing with BIMB Investment for the first time other than Staff of the Manager and Persons registered with a body approved by SC to deal in unit trusts. During the Cooling-off Period, the investor, upon changing his/her mind about the unit trust investment that he/she has made, may proceed to exercise his/her Cooling-off Right by submitting a cooling-off request to BIMB Investment, at the nearest Bank Islam branches or from our authorized IUTAs.

Notes:

1. **Total Return** of the Fund has been verified by Novagni Analytics & Advisory Sdn. Bhd. (363145-W)
2. **Average Total Return** is derived by this formula:

$$\frac{\text{Total Return}}{\text{Number of Years under Review}}$$

Past performance is not necessarily indicative of future performance and unit prices and investment returns may go down, as well as up.

Portfolio Turnover Ratio (PTR)

Financial Year Ended	31 March 2023	31 March 2022
PTR (times)	0.07	0.82

PTR for financial year ended 31 March 2023 was lower than the previous financial year due to lower average purchases and sales amount by the fund during the financial year.

PTR is derived from the following calculation:

$$\frac{(\text{Total acquisition for the financial year} + \text{total disposal for the financial year}) \div 2}{\text{Average NAV of the Fund for the financial year calculated on a daily basis.}}$$

PAST PERFORMANCE OF THE FUND IS NOT AN INDICATION OF ITS FUTURE PERFORMANCE.
