1.0 MANAGER'S REPORT

Dear Unit Holders,

We are pleased to present the Manager's Report of BIMB Dana Al-Munsif (the "Fund") for the financial year ended 31 August 2023.

1.1 Fund Name/ Fund Type/ Fund Category/ Fund Investment Objective/ Fund Performance Benchmark/ Fund Distribution Policy

Fund Name	BIMB Dana Al-Munsif		
Fund Type	Income and growth		
Fund Category	Balanced		
Fund Investment Objective	The principal investment objective of the Fund is to provide a steady and consistent income and capital appreciation of the Units over the medium to long term* period. Accordingly, returns shall be in the form of long term capital growth and regular income distribution to the Unit Holders. *Note: "medium to long term" in this context refers to three (3) years or more. Any material change to the investment objective of the Fund would require Unit Holders' approval.		
Fund Performance	60:40 ratio of the FBM Emas Shariah Index and 12-month Term Deposit-		
Benchmark	i Tawarruq (TDT-i) of Bank Islam. Information on the selected		
	benchmarks can be obtained from Bursa Malaysia's website and Bank		
	Islam's website respectively.		
Fund Distribution	The Fund intends to pay out annual income distribution to Unit Holders		
Policy	if sufficient investment income has been accumulated during the year.		

1.2 Performance for the Financial Year Ended 31 August 2023

1.2.1 Performance Review

For the financial year under review, the Fund registered a return of -7.01% as compared to its benchmark's return of 1.88%. The Fund did not manage to achieve its investment objective of providing income and capital appreciation due to the challenging equity market conditions in Malaysia as the FBM KLCI Index was one of Asia's worst performing burse in 1H of 2023. Nonetheless, the Fund managed to declare its first interim income distribution of 0.66 cent/unit (2.24%) and final income distribution of 0.65 cent/unit (2.36% yield), translating into a total of 1.31 cent/unit and a yield of 4.6% to the Fund's investors.

The selected performance benchmark for the Fund was based on 60:40 ratio of the FBM Emas Shariah Index and 12-month Term Deposit-i Tawarruq (TDT-i) rate of Bank Islam Malaysia Berhad.

The Fund's strategy had been focusing on well-established companies that had resilient earnings quality as well as carrying good prospects for earnings growth which offered good potential for share price appreciation in the future.

As at 31 August 2023, the Fund had 59.04% exposure in Shariah-compliant equities and the remaining in cash and cash equivalents. In terms of total Net Asset Value (NAV), the Fund size as at 31 August 2023 was at RM5.29 million, as compared to RM6.54 million as at the previous financial year end.

During the year under review, the Fund had not undertaken any securities lending or repurchase transactions nor cross trade transactions. There was no significant change to the state of affairs of the Fund and no circumstances that materially affect the interests of Unit Holders had occurred up to the date of this Manager's Report.

Total Return Number of Years under Review

The calculation of average total return was based on method obtained from Refinitiv Lipper.

Unit prices and return on investment may fluctuate, hence, past performance shall not be an indicator of future performance.

1.3 Economy and Market Review

1.3.1 Economy

Global

The United States (US) economy accelerated 2.6% year-on-year during the second quarter of 2023, up from 1.8% in the first quarter and 0.9% in the preceding period.

The Euro zone economy grew by 0.6% year-on-year in the second quarter of 2023, easing from a 1.1% expansion in the previous period but slightly surpassing market consensus of 0.5%, a preliminary estimate showed.

The China economy expanded by 6.3% year-on-year in the second quarter of 2023, showing faster growth compared to the 4.5% recorded in the first quarter, but falling short of market estimated of 7.3%. For the first half of 2023, the economy had grown by 5.5%.

(Source: Bureau of Economic Analysis, CNBC, Trading Economics)

Local

The Malaysian economy grew by 2.9% in the second quarter of 2023, decelerating sharply from a 5.6% growth in the previous quarter, due to weaker external demand amid a global technology downcycle, lower commodity production and a high base effect from the second quarter of 2022.

(Source: Bank Negara Malaysia and Department of Statistics Malaysia)

1.3.2 Equity Market Review

FTSE Bursa Malaysia EMAS Shariah Index (FBM Shariah) commenced the year under review at 10,813.46 points on 30 August 2022. Subsequently, it declined to a low of 9,767.64 points on 13 October 2022 before increasing to the highest level of 11,212.27 points on 3 February 2023 and closing at 10,920.64 points on 30 August 2023. For the financial year under review, FBM Shariah increased by 107 points or 0.99%.

Sukuk Market and Money Market

Global

For the year under review, US treasury yields turned higher as it became evident that the market anticipated the hawkish stance by the Fed. US treasury yields moved higher due to mostly hawkish narrative from the Fed. At the Jackson Hole Symposium, Fed chair Jerome Powell reiterated that the Fed may be ready to raise rates and hold at an elevated level until inflation shown sign of slowing towards the Fed's 2% target.

Local

The local bond market witnessed a bull-flattening of the Malaysian Government Securities (MGS) curve during the period under review amid a continuation in Bank Negara Malaysia (BNM)'s Monetary Policy tightening in May, demand for duration and increased participation by onshore institutional and non-resident investors.

BNM raised the Overnight Policy Rate (OPR) by 25bps to 3.00% in May 2023, after putting a halt to two (2) consecutive pauses in January and March 2023 and paused in July 2023 through the Monetary Policy Committee (MPC) meeting. The rate hike generally surprised the markets but was in line with market consensus view for a 25bps hike. The rate hike decision was premised on resilient domestic growth outlook, no signs of excessive tightening that was affecting consumption and investment activities, risks to domestic growth outlook was fairly balanced and upside risks to inflation.

(Source: Bloomberg, Bank Negara Malaysia and Department of Statistics Malaysia)

1.4 Market Outlook and Strategy

Equity

With the COVID-19 pandemic entering an endemic phase and China finally re-opened its door to the world, countries around the world including Malaysia are now embracing the return of tourist into their countries with tourism sectors recovering in full swing. While the Omicron strain continues to evolve, full lockdown implemented in the past during the early stage of the pandemic seems to be off the table for now.

The war between Russia and Ukraine, spikes in COVID-19 cases and high inflation remains key risks to the global market. Nonetheless, the Fund will continue to focus on growth-oriented and economy re-opening beneficiaries to capture NAV upside potential within the medium-term horizon.

With the conclusion of six (6) states election in August, Malaysia can now enjoy a more stable political situation and thus allowing the federal government to implement more infrastructure related project in the next 3-year. The Fund also plans to increase its exposure in property sector to benefit from this trend in the future.

Sukuk Market and Money Market

BNM is expected to maintain the OPR in their final two (2) meetings for 2023 which will be held in September and November. However, the future stance of Monetary Policy will remain data dependent on the market condition.

Our current strategy is to extend the duration of investments in Islamic money market instruments with the expectation of OPR unchanged and a rate cut next year.

1.8 Policy on Rebate and Soft Commission

Any rebates received by the Manager would be directed to the account of the Fund. Any soft commissions received from the brokers who were in the form of research and advisory services that assist in the decision-making process relating to the Fund's investment might be retained by the Manager.

For the financial year under review, the Manager had received on behalf of the Fund, soft commissions from brokers in the form of research and advisory services which were of demonstrable benefit to Unit holders of the Fund and the Manager also confirmed there was no churning of trades.

For and on behalf of

The Manager

BIMB INVESTMENT MANAGEMENT BERHAD

Date: 31 October 2023

1.0 LAPORAN PENGURUS

Para Pemegang Unit,

Kami dengan sukacitanya membentangkan Laporan Pengurus BIMB Dana Al-Munsif (Dana) bagi tahun kewangan berakhir 31 Ogos 2023.

1.1 Nama Dana/ Jenis Dana/ Kategori Dana/ Objektif Pelaburan Dana/ Penanda Aras Dana/ Polisi Agihan Dana

Nama Dana	BIMB Dana Al-Munsif			
Jenis Dana	Pendapatan dan pertumbuhan			
Kategori Dana	Seimbang			
Objektif Pelaburan Dana	Objektif utama pelaburan Dana adalah untuk menyediakan pendapatan yang stabil serta konsisten dan peningkatan modal Unit dalam jangkamasa sederhana hingga panjang*. Sehubungan dengan itu, pulangan adalah dalam bentuk pertumbuhan modal jangkamasa panjang dan pengagihan pendapatan yang kerap kepada pemegang unit. *Nota:Jangkamasa sederhana hingga panjang dalam konteks ini merujuk kepada tiga (3) tahun atau lebih. Sebarang perubahan ketara kepada objektif pelaburan Dana memerlukan			
	kelulusan daripada Pemegang Unit.			
Penanda Aras Dana	Nisbah 60:40 Indeks FBM Emas Shariah dan kadar 12-bulan Deposit Bertempoh-i Tawarruq (TDT-i) Bank Islam Malaysia Berhad. Maklumat mengenai penanda aras yang dipilih dapat diperoleh dari laman web Bursa Malaysia dan laman web Bank Islam.			
Polisi Agihan Dana	Dana ini berhasrat membayar agihan pendapatan tahunan kepada Pemegang Unit sekiranya pendapatan pelaburan sepanjang tahun terkumpul adalah mencukupi.			

1.2 Prestasi bagi Tahun Kewangan Berakhir pada 31 Ogos 2023

1.2.1 Kajian Prestasi

Bagi tahun kewangan dalam kajian, Dana telah mencatatkan pulangan sebanyak -7.01% berbanding pulangan penanda arasnya sebanyak 1.88%. Dana ini tidak berjaya mencapai objektif pelaburannya untuk menyediakan pendapatan dan peningkatan modal disebabkan oleh pasaran ekuiti Malaysia yang agak mencabar. Ini adalah disebabkan oleh indeks FBM KLCI Index telah menjadi salah satu pasaran Asia Pasifik yang merosot paling teruk pada setengah tahun pertama di 2023. Namun demikian, Dana ini telah berjaya membayai interim dividen pertama sebanyak 0.66 sen/unit(2.36% kadar pulangan) dan interim akhir dividen sebanyak 0.65 sen/unit (2.36% kadar pulangan), jumlah keseluruhan sebanyak 1.31 sen/unit atau pulangan 4.6% kepada pelabur Dana ini.

Penanda aras prestasi yang dipilih untuk Dana adalah berdasarkan nisbah 60:40 Indeks Shariah Emas FBM dan kadar Deposit-i Tawarruq (TDT-i) 12 bulan Bank Islam Malaysia Berhad.

Strategi Dana adalah untuk memberi tumpuan kepada syarikat-syarikat yang kukuh yang mempunyai kualiti pendapatan yang berdaya tahan serta mempunyai prospek yang baik untuk pertumbuhan pendapatan yang menawarkan potensi kenaikan harga saham pada masa hadapan.

Setakat 31 Ogos 2023, Dana mempunyai 59.04% pendedahan dalam ekuiti patuh Shariah dan selebihnya dalam tunai dan setara tunai. Dari segi jumlah Nilai Aset Bersih (NAB), saiz Dana pada 31 Ogos 2023 adalah RM5.29 juta berbanding RM6.54 juta pada akhir tahun kewangan sebelumnya.

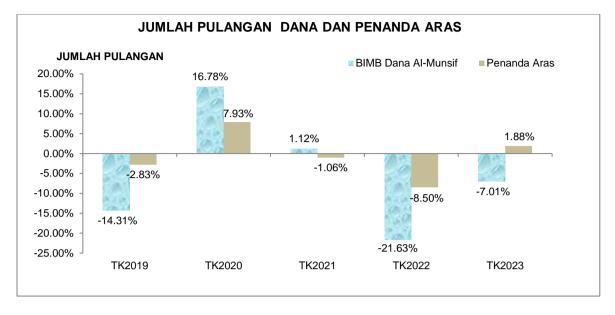

Sepanjang tahun dalam kajian, Dana ini tidak menjalankan sebarang pinjaman sekuriti atau urus niaga belian semula mahupun urus niaga silang. Tiada perubahan ketara kepada hal ehwal Dana dan tidak berlaku keadaan yang secara material menjejaskan kepentingan Pemegang Unit sehingga tarikh Laporan Pengurus ini.

Harga unit dan pulangan pelaburan mungkin turun dan naik. Oleh itu, prestasi masa lalu tidak menjadi petunjuk prestasi masa hadapan.

1.3 Kajian Ekonomi dan Pasaran

1.3.1 Ekonomi

Global

Ekonomi Amerika Syarikat (AS) telah meningkat sebanyak 2.6% tahun-ke-tahun pada suku kedua tahun 2023, lebih tinggi berbanding 1.8% yang dicatatkan pada suku pertama dan 0.9% yang dicatatkan tempoh sebelumnya.

Ekonomi zon Euro telah meningkat sebanyak 0.6% tahun-ke-tahun pada suku kedua 2023 berdasarkan kiraan awal, iaitu lebih rendah berbanding pertumbuhan 1.1% yang dicatatkan pada suku sebelumnya, namun lebih tinggi berbanding jangkaan pertumbuhan pasaran sebanyak 0.5%.

Ekonomi negara China telah berkembang sebanyak 6.3% tahun-ke-tahun pada suku kedua tahun 2023, pertumbuhan yang lebih pantas berbanding 4.5% yang dicatat dalam suku pertama, tetapi lebih rendah berbanding anggaran pasaran sebanyak 7.3%. Bagi separuh tahun pertama 2023, ekonominya bertumbuh sebanyak 5.5%.

(Sumber: Bureau of Economic Analysis, CNBC, Trading Economics)

Lokal

Ekonomi Malaysia telah berkembang sebanyak 2.9% pada suku kedua 2023, meningkat lebih rendah berbanding daripada pertumbuhan 5.6% pada suku sebelumnya disebabkan kemerosotan permintaan Semicon dunia oleh kejatuhan permintaan produk teknologi, kadar pengeluaran komiditi yang lebih rendah and kesan asas yang lebih tinggi pada suku kedua 2022.

(Sumber: Bloomberg, Bank Negara Malaysia dan Jabatan Statistik Malaysia)

1.3.2 Kajian Pasaran Ekuiti

Indeks FTSE Bursa Malaysia EMAS Shariah (FBM Shariah) memulakan tahun dalam kajian pada 10,813.46 mata pada 31 Ogos 2022. Selepas itu, ia merosot kepada paras terendah 9,767.64 mata pada 13 Oktober 2022 sebelum meningkat ke paras tertinggi 11,212.27 mata pada 3 Februari 2023 dan ditutup pada 10,920.64 mata pada 31 Ogos 2023. Bagi tahun kewangan dalam kajian, FBM Shariah naik 107 mata atau 0.99%

Pasaran Sukuk dan Pasaran Wang

Global

Bagi tahun dalam kajian, hasil Sijil Perbendaharaan Amerika Syarikat (UST) meningkat, dan ini membuktikan bahawa pasaran menjangkakan pendirian Rizab Persekutuan Amerika Syarikat (Fed) menaikkan lagi kadar faedah Fed. Hasil UST meningkat lebih tinggi kerana naratif daripada Fed menjangkakan menaikkan lagi kadar Fed.Di Simposium Jackson Hole, pengerusi mengulangi bahawa Fed mungkin bersedia untuk menaikkan kadar dan mengekalkannya pada tahap yang tinggi sehingga inflasi menunjukkan tanda-tanda perlahan kearah sasaran 2%.

Lokal

Pasaran bon tempatan menunjukkan keluk Sekuriti Kerajaan Malaysia (MGS) menjadi lebih rata di sepanjang tahun kajian dengan berterusan bersamaan dengan pengetatan Dasar Monetari oleh Bank Negara Malaysia (BNM) pada bulan Mei, permintaan untuk durasi dan peningkatan dalam penyertaan oleh pelabur institusi tempatan dan pelabur luar.

BNM telah menaikkan Kadar Dasar Semalaman (OPR) pada bulan Mei, selepas menghentikan kenaikan OPR pada bulan Januari dan Mac 2023 dan juga pada bulan Julai 2023 melalui mesyuarat Jawatankuasa Dasar Monetari. Kenaikan OPR mengejutkan pasaran tetapi sejajar dengan pandangan konsensus pasaran untuk kenaikan sebanyak 25bps. Keputusan kenaikan kadar ini berdasarkan pada prospek pertumbuhan domestik yang kukuh, tiada tanda-tanda pengetatan berlebihan yang mempengaruhi aktiviti penggunaan dan pelaburan, risiko terhadap prospek pertumbuhan domestik ke atas inflasi adalah positif.

(Sumber: Bloomberg, Bank Negara Malaysia and Department of Statistics Malaysia)

1.4 Tinjaun Pasaran dan Strategi

Ekuiti

Memandangkan pandemik COVID-19 sedang memasuki fasa endemik, kebanyakan negara di seluruh dunia termasuk Malaysia perlu menggunakan strategi baharu iaitu untuk hidup dengan virus tersebut dengan sokongan vaksinasi penggalak tahunan untuk penduduknya yang divaksinasi. Walaupun varian Omicron masih berkembang, kawalan pergerakan penuh yang pernah dilaksanakan semasa peringkat awal penyebaran pandemik berkemungkinan tidak diperkenalkan semula buat masa ini.

Peperangan antara negara Rusia dan Ukraine serta peningkatan kes COVID-19 kekal sebagai risiko utama kepada pasaran global. Dana ini akan terus memberi fokus kepada sektor-sektor berorientasikan pertumbuhan dan kaunter-kaunter yang mendapat manfaat daripada pembukaan semula ekonomi untuk menjana potensi peningkatan NAB dalam jangka masa sederhana.

Dengan berakhirnya enam (6) pilihan raya negeri pada bulan Ogos, Malaysia kini dapat menikmati situasi politik yang lebih stabil dan oleh itu membolehkan kerajaan persekutuan untuk melaksanakan lebih banyak projek berkaitan infrastruktur dalam tempoh tiga (3) tahun yang akan datang. Dana ini juga merancang untuk meningkatkan pendedahan dalam sektor hartanah untuk mendapat manfaat daripada trend ini pada masa depan.

Pasaran Sukuk dan Pasaran Wang

BNM dijangka akan mengekalkan kadar OPR dalam dua (2) mesyuarat terakhir mereka untuk tahun 2023 yang akan diadakan pada bulan September dan November. Walaubagaimanapun, pendirian Dasar Monetari pada masa hadapan akan kekal bergantung kepada keadaan data.

Strategi kami ketika ini adalah untuk memanjangkan durasi pelaburan dalam instrumen pasaran wang Islam kerana menjangkan tiada lagi kenaikan kadar OPR dan menjangkakan akan ada potongan pada kadar OPR tahun hadapan.

5.0 INDEPENDENT AUDITORS' REPORT

INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF BIMB DANA AL-MUNSIF

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of BIMB Dana Al-Munsif (the "Fund") give a true and fair view of the financial position of the Fund as at 31 August 2023, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 31 August 2023, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 22 to 48.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF BIMB DANA AL-MUNSIF (CONTINUED)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Information other than the financial statements and auditors' report thereon

The Manager of the Fund is responsible for the other information. The other information comprises Manager's Report but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the financial statements

The Manager of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to terminate the Fund, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF BIMB DANA AL-MUNSIF (CONTINUED)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Auditors' responsibilities for the audit of the financial statements (continued)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- (d) Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF BIMB DANA AL-MUNSIF (CONTINUED)

OTHER MATTERS

This report is made solely to the unit holders of the Fund and for no other purpose. We do not assume responsibility to any other person for the content of this report.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023

1 INFORMATION ON THE FUND

BIMB Dana Al-Munsif (hereinafter referred to as "the Fund") was constituted pursuant to the execution of a Deed dated 6 December 2001, Fifth Master Supplemental Deed dated 9 August 2012, Sixth Master Supplemental deed dated 18 August 2017, Seventh Master Supplemental Deed dated 6 April 2018, Eighth Master Supplemental Deed dated 25 March 2019, Ninth Master Supplemental Deed dated 9 March 2020, Tenth Master Supplemental Deed dated 30 November 2021 and Eleventh Master Supplemental Deed dated 30 December 2022 between the Manager – BIMB Investment Management Berhad and the Trustee – SCBMB Trustee Berhad.

The principal activity of the Fund is to invest in authorised investments as defined in the Deeds, which include Shariah-compliant securities of companies listed on Bursa Malaysia, short term placements and Islamic debt securities.

The Manager, BIMB Investment Management Berhad, a company incorporated in Malaysia, is a subsidiary of Bank Islam Malaysia Berhad.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation

The financial statements of the Fund have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS") and International Financial Reporting Standards ("IFRS").

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss ("FVTPL").

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial year.

It also requires the Manager to exercise their judgement in the process of applying the Fund's accounting policies. Although these estimates and assumptions are based on the Manager's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(k) to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- (a) Basis of preparation (continued)
 - (i) Standards, amendments, to published standards and interpretations to existing standard that are effective:

There are no other standards, amendments to standards or interpretations that are effective for the financial year beginning on 1 September 2022 that have a material effect on the financial statements of the Fund.

(ii) Standards and amendments that have been issued but not yet effective:

A number of new standards, amendments to standards and interpretations are effective for the financial year beginning after 1 September 2022. None of these are expected to have a material effect on the financial statements of the Fund, except the following set out below:

Amendments to MFRS 101 'Classification of liabilities as current or non-current' clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting year. Classification is unaffected by the Fund's expectations or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant).

The amendments are effective for the annual financial reporting year beginning on or after 1 September 2024.

The amendment shall be applied retrospectively.

- (b) Financial assets
 - (i) Recognition and initial measurement

A financial instrument is recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without significant financing component) or a financial liability is initially measured at fair value plus or minus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

Categories of financial assets are determined on initial recognition and are not reclassified subsequent to their initial recognition unless the Fund changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting year following the change of the business model.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- (b) Financial assets (continued)
 - (i) Recognition and initial measurement (continued)

The fund categorises financial instruments as follows:

(a) Amortised cost

Amortised cost category comprises financial assets that are held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding. The financial assets are not designated as fair value through profit or loss. Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective profit method. The amortised cost is reduced by impairment losses. Profit income, foreign exchange gains and losses and impairment are recognised in profit or loss.

Profit income is recognised by applying effective profit rate to the gross carrying amount except for credit impairment financial assets (see Note 2(b)(iv)) where the effective profit rate is applied to the amortised cost.

(b) Fair value through profit or loss

All financial assets not measured at amortised cost or fair value through other comprehensive income as described above are measured at fair value through profit or loss. On initial recognition, the Fund may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at fair value through other comprehensive income as at fair value through profit or loss if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

For listed Shariah-compliant equities/securities, valuation shall be based on the last done market price quoted by the respective stock exchanges on the relevant date. However, if a valuation based on the market price does not represent the fair value of the Shariah-compliant securities, for example during abnormal market conditions; or no market price is available, including in the event of a suspension in the quotation of the Shariahcompliant securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, then the Shariah-compliant securities should be valued at fair value, as determined in good faith by the Manager, based on the methods or bases approved by the Trustee after appropriate technical consultation.

Financial assets categorised as fair value through profit or loss are subsequently measured at their fair value. Net gains or losses, including any profit or dividend income (Shariah-compliant), are recognised in the profit or loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- (b) Financial assets (continued)
 - (ii) Financial instrument categories and subsequent measurement

All financial assets, except for those measured at fair value through profit or loss, are subject to impairment assessment (see Note 2(b)(iv)).

(iii) Derecognition

A financial asset or part of it is derecognised when, and only when, the contractual rights to the cash flows from the financial asset expire or the financial asset is transferred to another party without retaining control or substantially all risks and rewards of the asset. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in equity is recognised in profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expired. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(iv) Impairment for assets carried at amortised cost

The Fund measures credit risk and expected credit loss using probability of default, exposure at default and loss given default. The Manager considers both historical analysis and forward-looking information in determining any expected credit loss. The Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 90 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- (b) Financial assets (continued)
 - (iv) Impairment for assets carried at amortised cost (continued)

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of obligor's sources of income or assets to generate sufficient future cash flows to pay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

(c) Financial liabilities

The categories of financial liabilities at initial recognition are as follows:

Amortised cost

Other financial liabilities not categorised as fair value through profit or loss are subsequently measured at amortised cost using the effective profit method.

(d) Income recognition

Profit from short term investments is recognised as it accrues, using the effective profit method in profit or loss.

Dividend income (Shariah-compliant) is recognised on the ex-dividend date, when the right to receive the dividend has been established.

Realised gains and losses on disposal of Shariah-compliant investments are accounted for as the difference between the net disposal proceeds and the carrying amount of investments, determined on weighted average cost basis.

Realised gains and losses on sale of Shariah-compliant investments are accounted for as the difference between the net disposal proceeds and the carrying amount of investments, determined on weighted average cost basis.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(e) Amount due from/(to) stockbrokers

Amount due from/(to) stockbrokers represent receivables/(payables) for Shariah-compliant securities sold/(bought) and receivables/(payables) for that have been contracted for but not yet settled or delivered on the statement of financial position date respectively.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from the stockbroker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly, since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses.

Significant financial difficulties of the stockbroker, probability that the stockbroker will enter bankruptcy or financial reorganisation, and default in payments are considered indicators that a loss allowance may be required.

If credit risk increases to the point that it is considered to be credit impaired, profit income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by the Manager as any contractual payment which is more than 30 days past due.

(f) Cash and cash equivalents (Shariah-compliant)

Cash and cash equivalents (Shariah-compliant) consist of cash at bank and short term Islamic deposits with licensed Islamic financial institutions which have insignificant risk of changes in fair value with original maturities of 3 months or less, and are used by the Fund in the management of its short term commitments.

Cash and cash equivalents (Shariah-compliant) are categorised and measured as amortised cost.

(g) Income tax

Income tax expense comprises current tax. Current tax is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the statement of financial position date.

(h) Distribution

A distribution to the Fund's unit holders is accounted for as a deduction from realised reserve. A proposed distribution to unit holders is recognised in the statement of changes in equity upon approval by the Trustee.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Unit holders' capital

The Fund issues cancellable units, which are cancelled at the unit holder's option and are classified as equity. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's net asset value. The outstanding units is carried at the redemption amount that is payable at the financial position date if the unit holder exercises the right to put the unit back to the Fund.

Units are created and cancelled at the unit holder's option at prices based on the Fund's net asset value per unit at the time of creation or cancellation. The Fund's net asset value per unit is calculated by dividing the net asset attributable to unit holders with the total number of outstanding units. In accordance with the Securities Commission's Guidelines on Unit Trust Funds in Malaysia, investment positions are valued based on the last traded market price for the purpose of determining the net asset value per unit for creations and cancellations.

The units in the Fund are puttable instruments, classified as equity, which entitle the unit holders to a pro-rata share of the net asset of the Fund. The units are subordinated and have identical features. There is no contractual obligation to deliver cash or another financial asset other than the obligation on the Fund to repurchase the units. The total expected cash flows from the units are based on the change in the net asset of the Fund.

(i) Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's functional and presentation currency.

(k) Use of estimates and judgements

The preparation of financial statements in conformity with MFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised and in any future years affected.

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023 (CONTINUED)

3 FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

Financial instruments of the Fund are as follows:

	Financial	Financial	
	assets at fair value through	assets at amortised	
	profit or loss	cost	Total
	RM	RM	RM
		RIVI	r IVI
2023			
Cash and cash equivalents (Shariah-			
compliant)	-	2,190,514	2,190,514
Quoted Shariah-compliant securities	3,128,510	-	3,128,510
Amount due from Manager	-	623	623
Dividend receivable	-	8,760	8,760
	3,128,510	2,199,897	5,328,407
2022			
Cash and cash equivalents (Shariah-			
compliant)	-	2,692,308	2,692,308
Quoted Shariah-compliant securities	3,854,172	-	3,854,172
Amount due from stockbrokers	-	204,972	204,972
Amount due from Manager	-	17,964	17,964
Dividend receivable	-	4,293	4,293
	3,854,172	2,919,537	6,773,709

All liabilities are financial liabilities which are carried at amortised cost.

The Fund aims to provide investors with steady and consistent income and capital appreciation over the medium to long term period.

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk and profit rate risk), credit risk, liquidity risk and capital risk.

Financial risk management is carried out through internal control process adopted by the Manager and adherence to the investment restrictions as stipulated in the Deeds and the Guidelines.

- (a) Market risk
 - (i) Price risk

The Fund is exposed to price risk because of investments held by the Fund and classified as at fair value through profit or loss. Price risk is the risk that fair value of investment will fluctuate because of the changes in market prices (other than those arising from profit rate risk). Such fluctuation may cause the Fund's net asset value ("NAV") and price of units to fall as well as rise, and income produced by the Fund may also fluctuate. The price risk is managed through diversification and selection of securities and other financial instruments within specified limits according to the Deeds.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023 (CONTINUED)

3 FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONTINUED)

- (a) Market risk (continued)
 - (i) Price risk (continued)

The table below shows the financial instruments of the Fund which is exposed to price risk.

	<u>2023</u> RM	<u>2022</u> RM
Quoted Shariah-compliant securities measured at fair value through profit or loss	3,128,510	3,854,172

The following table summarises the sensitivity of the Fund's profit/(loss) before taxation and NAV risk movements at the end of each reporting year. The analysis is based on the assumptions that the market price increased and decreased by 5% (2022: 5%) with all other variables held constant and that fair value of the Fund's investments move according to the historical correlation of the index. Disclosures below are shown in absolute terms, changes and impacts could be positive or negative.

	Change in <u>price</u> %	Impact on profit/(loss) before <u>taxation/NAV</u> RM
2023 Quoted Shariah-compliant securities measured at fair value through profit or loss	5	156,426
2022 Quoted Shariah-compliant securities measured at fair value through profit or loss	5	192,709

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023 (CONTINUED)

3 FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONTINUED)

- (a) Market risk (continued)
 - (ii) Profit rate risk

Profit rate risk rate is a general economic indicator that will have an impact on the management of the Fund.

It does not in any way suggest that this Fund will invest in conventional financial instruments. All investment carried out for the Fund including placements and Islamic deposits are in accordance with Shariah.

Fair value profit rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market profit rates.

The Fund's exposure to fair value profit rate risk arises from Shariah-compliant investment in Islamic money market instruments. The profit rate risk is expected to be minimal as the Fund's investments comprise mainly short term Islamic deposits with approved licensed Islamic financial institutions.

Cash flow profit rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market profit rates. The Fund is not exposed to cash flow profit rate risk as the Fund does not hold any financial instruments at variable profit rate.

(b) Credit risk

Credit risk is the risk of a financial loss to the Fund if counterparty to a financial instrument fails to meet its contractual obligations. The Fund's exposure to credit risk arises principally from its cash and cash equivalents (Shariah-compliant), amount due from stockbroker, amount due from Manager and dividend receivables.

The Manager manages the credit risk by setting counterparty limits and undertaking credit evaluation to minimise the risk. The exposure to credit risk is monitored on an ongoing basis.

The following table sets out the credit risk concentration of the Fund:

	Cash and cash equivalents <u>(Shariah-compliant)</u> RM	Amount due from <u>Manager</u> RM	Dividend <u>receivable</u> RM	<u>Total</u> RM
<u>2023</u>				
Finance				
- AAA	1,149,591	-	-	1,149,591

Others					
 Not-rated 	647,705	204,972	17,964	4,293	874,934
	2,692,308	204,972	17,964	4,293	2,919,537

All the financial assets of the Fund as at end of the financial year are neither past due nor impaired.

(c) Liquidity risk

Liquidity risk is the risk that the Fund will not be able to meet its financial obligations as they fall due. The Fund's exposure to liquidity risk arises principally from its amount due to stockbrokers, accrued management fee, amount due to Trustee, audit fee payable, tax agent's fee payable, Shariah adviser's fee payable and other payables which are due within one year.

The Fund maintains sufficient level of Islamic liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellation of units by unit holders. Islamic liquid assets comprise cash at bank and other instruments, which are capable of being converted into cash within 7 days.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

(d) Capital risk management

The Fund's capital is represented by the unit holders' capital in the statement of financial position. The Manager of the Fund monitors the adequacy of capital on an ongoing basis. There is no external capital requirement imposed on the Fund.

(e) Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023 (CONTINUED)

3 FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONTINUED)

(e) Fair value estimation (continued)

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

<u>2022</u>				
Financial assets at fair				
value through profit				
or loss:				
- Quoted Shariah-				
compliant securities	3,854,172			3,854,172

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include quoted Shariah-compliant securities. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

(ii) The carrying values of cash and cash equivalents (Shariah-compliant), amount due from stockbrokers, amount due from Manager, dividend receivables dividend receivables and all current liabilities are a reasonable approximation of their fair values due to their short-term nature.

4 MANAGEMENT FEE

The Manager's fee payable to the Manager of the Fund is based on 1.50% (2022: 1.50%) per annum of the net asset value of the Fund calculated on a daily basis.

There will be no further liability to the Manager in respect of management fee other than amounts recognised above.

5 TRUSTEE'S FEE

The Trustee's fee is payable to the Trustee is based on 0.05% (2022: 0.05%) per annum subject to a minimum of RM18,000 (2022: RM18,000) of the net asset value of the Fund calculated on a daily basis.

Net distribution amount	267,532	
GROSS/NET DISTRIBUTION PER UNIT (SEN) Distribution on 27 February 2023	0.66	
Distribution on 14 July 2023	0.65	

Gross distribution is derived using total income less total expenses. Net distribution above is sourced from current and prior financial year's realised gain.

Gross distribution per unit is derived from gross realised income less expenses, divided by the number of units in circulation. Net distribution per unit is derived from gross realised income less expenses and taxation, divided by the number of units in circulation.

During the financial year ended 31 August 2023, the Fund incurred unrealised gain of RM 292,343 (2022: unrealised loss of RM 218,346).

As at 31 August 2023, the Fund has accumulated unrealised gain of RM 35,157 (2022: unrealised loss of RM 257,186).

11 TOTAL EXPENSE RATIO ("TER")

	<u>2023</u> %	<u>2022</u> %
TER	2.16	2.19

TER is derived from the following calculation:

TER	=	$(A + B + C + D + E + F) \times 100$
		G

A	=	Management fee

- B = Trustee's fees
- C = Audit fee
- D = Tax agent's fee
- E = Shariah adviser fee
- F = Other expenses including Sales and Services Tax ("SST") on transaction costs
- G = Average NAV of the Fund calculated on a daily basis

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2023 (CONTINUED)

11 TOTAL EXPENSE RATIO ("TER")

The average NAV of the Fund for the financial year calculated on a daily basis is RM5,830,899 (2022: RM7,527,551).

12 PORTFOLIO TURNOVER RATIO ("PTR")

	,	,	<u>2023</u>	<u>2022</u>
PTR (times)			1.44	1.12

PTR is derived from the following calculation:

<u>(Total acquisition for the financial year + total disposal for the financial year) \div 2 Average NAV of the Fund for the financial year calculated on a daily basis</u>

where:

are as follows:

total acquisition for the financial year = RM7,909,462 (2022: RM7,925,333) total disposal for the financial year = RM8,927,467 (2022: RM8,975,731)
